Brad Henry
Governor

December 17, 2003

Mr. Richard Greene, 6RA
Regional Administrator
U.S. EPA Region VI
1445 Ross Avenue
Dallas, TX 75203-2733

Dear Mr. Greene:

In my July 15, 2003, letter to you, I recommended that the entire State of Oklahoma, with the exception of the Tulsa Transportation Management Area (TTMA), be designated as "attainment for the 8-hour air quality standard for ozone, and that the TTMA be designated as "unclassifiable." I am pleased to inform you that the most recent quality assured data from the 2001-2003 ozone seasons indicate that the 8-hour standard is being met at all monitoring locations within the State of Oklahoma. I am therefore now recommending that the entire State be designated as "attainment."

We look forward to working with your agency in formulating the final 8-hour designations.

Sincerely,

Brad Henry
Governor
