US EPA ARCHIVE DOCUMENT

22 FEB 1980

PP# 9F2205 BAS-352F.

R. Quick, RCB, HED (TS-769)

Eugene Wilson, RD (TS-767)

THRU: Richard D. Schmitt, Acting Chief, RCB, HED (TS-769)

RCB does not concur in sign-off because:

(1) Status of inert [redacted] is not resolved. It is apparently still uncleared.

Rob Taylor 9E2179

(2) Tolerance is not proposed in the terms we requested; parent plus 3,5-dichloroaniline moiety containing metabolites.

(3) To our knowledge, vinclozolin is not a common name. It should not appear in the Regulation.
