Contaminants of Concern and Other Target Analytes Table (Project Action Limits and Reporting Limits Table)

Compound of Concern and Other Target Analytes	Matrix	Project Acton Limit (units)	Laboratory MDL (units)	Laboratory Quantitation Limit (Units)

List the Contaminants of Concern (COCs) and other target analytes/compounds that will be measured for the project. Identify the COCs with an "*." Verify that the laboratory quantitation limit is less than the Project Action Limit. Refer to *EPA QA/G-5* Section 2.1.6 for guidance.
