PUBLIC NOTICE

Chamisa Compressed Air Energy Storage, Tulia, TX

**ANNOUNCEMENT OF PROPOSED PERMIT AND PUBLIC HEARING, AND REQUEST FOR
PUBLIC COMMENT OF PROPOSED CLEAN AIR ACT GREENHOUSE GAS PREVENTION OF
SIGNIFICANT DETERIORATION PRECONSTRUCTION PERMIT**

Public Comment Period February 6, 2014 - March 10, 2014

The United States Environmental Protection Agency (EPA) provides notice of and requests public comments on the EPA's proposed action relating to the Prevention of Significant Deterioration (PSD) permit application for the Chamisa Compressed Air Energy Storage (CAES), Project. If finalized, the permit would regulate greenhouse gas (GHG) pollutant emissions associated with the project to construct a bulk energy storage system that will use compressed air energy storage to produce up to 270 MW of electrical power. The Chamisa facility will be located near Tulia in Swisher County, Texas.

Under the provisions of 40 CFR 52.21 (except paragraph (a)(1)), EPA Region 6 implements a greenhouse gas PSD Federal Implementation Plan (FIP) for Texas. *See 40 CFR 52.2305*. As the project will result in increased greenhouse gas emissions for a facility described at 40 CFR 52.21(b)(49)(v), EPA concludes that the application is subject to PSD review for GHG emissions. The construction of the Chamisa CAES Project covered by the draft permit is composed of the following emission sources: turbine trains will comprise the majority of air emissions from the plant site, with smaller emissions from an associated emergency generator engine, the natural gas and ammonia equipment, electrical equipment, and two cooling towers.

Any interested individual may submit written comments on EPA's proposed PSD permit for the Chamisa CAES Project. All comments must be received in writing by March 10, 2014 or postmarked by March 10, 2014 to Aimee Wilson at one of the following addresses:
