### \*\*\*PUBLIC NOTICE\*\*\*

El Paso Electric Company, Montana Power Station  
ANNOUNCEMENT OF PROPOSED PERMIT AND PUBLIC HEARING, AND REQUEST FOR PUBLIC COMMENT OF PROPOSED CLEAN AIR ACT GREENHOUSE GAS PREVENTION OF SIGNIFICANT DETERIORATION PRECONSTRUCTION PERMIT  
Public Comment Period September 22, 2013 to October 22, 2013

The United States Environmental Protection Agency (EPA) provides notice of and requests public comments on the EPA's proposed action relating to the Prevention of Significant Deterioration (PSD) permit application for the El Paso Electric Company, Montana Power Station. If finalized, the permit would regulate greenhouse gas (GHG) pollutant emissions associated with the project to construct a new electric generation station in accordance with the PSD regulation (40 CFR 52.21). The proposed construction is located near El Paso, TX 79938 at the following coordinates: 31° 49' 26" N and 106° 12' 43" W.

EPA concludes that the El Paso Electric Company, Montana Power Station is subject to PSD review for the pollutant GHGs, as the project will result in increased greenhouse gas emissions for a facility described at 40 CFR 52.21(b)(49)(v). The proposed project consists of the construction of four (4) natural gas-fired combustion turbines, one (1) diesel firewater pump engine, fugitive circuit breaker emissions and fugitive emissions from various piping components. EPA Region 6 implements a Greenhouse Gas (GHG) PSD Federal Implementation Plan (FIP) for Texas under the provisions of 40 CFR 52.21 (except paragraph (a)(1)). See 40 CFR 52.2305.

Any interested individual may submit written comments on EPA's proposed PSD permit for the Montana Power Station. All comments must be received in writing by October 22, 2013 or postmarked by October 22, 2013 to Melanie Magee at one of the following addresses:
