PUBLIC NOTICE

Tenaska Brownsville Partners, LLC, Tenaska Brownsville Generating Station

ANNOUNCEMENT OF PROPOSED PERMIT AND PUBLIC HEARING, AND REQUEST FOR
PUBLIC COMMENT OF PROPOSED CLEAN AIR ACT GREENHOUSE GAS PREVENTION OF
SIGNIFICANT DETERIORATION PRECONSTRUCTION PERMIT

Permit Number: PSD-TX-1350-GHG

Public Comment Period October 29, 2014 to November 28, 2014

The United States Environmental Protection Agency (EPA) provides notice of and requests public comments on the EPA's proposed action relating to the Prevention of Significant Deterioration (PSD) permit application for the Tenaska Brownsville Partners, LLC, Tenaska Brownsville Generating Station (TBGS) Project. If finalized, the permit would regulate greenhouse gas (GHG) pollutant emissions associated with the project to construct a new electric generating plant. The proposed construction will occur at a site at the northeast corner of State Highway 550 and Old Alice Road, Cameron County, Brownsville, TX 78575.

Under the provisions of 40 CFR § 52.21 (except paragraph (a)(1)), EPA Region 6 implements a greenhouse gas PSD Federal Implementation Plan (FIP) for Texas. *See 40 CFR § 52.2305.* EPA concludes that the application is subject to PSD review for the pollutant GHGs. The TBGS project will consist of two combustion turbines (CT), each shaft-connected to electric generators and exhaust-ducted to supplemental-fired heat recovery steam generators (HRSG) which will power a single steam turbine generator. Each HSRG will use duct burners for supplemental firing to boost the CT exhaust energy when needed for additional steam electric generation. The TBGS plant will generate approximately 800 megawatts of net electrical power in the City of Brownsville.

Any interested individual may submit written comments on EPA's proposed PSD permit for the TBGS project. All comments must be received in writing by November 28, 2014, or postmarked by November 28, 2014, to Melanie Magee at one of the following addresses:
