SUMMARY: This notice announces the updated EPA Strategic Plan 2011-2015 in the above referenced RFP on pages 4 and 8.

Accordingly,

On page 4, Section I. Part C.1 shall now read as follows:

Linkage to EPA Strategic Plan

All proposals must support the EPA Strategic Plan’s Goal 1, ‘Taking Action on Climate Change and Improving Air Quality’; Objective 1.1 ‘Address Climate Change’ of EPA’s 2011-2015 Strategic Plan to “reduce the threats posed by climate change by reducing greenhouse gas emissions and taking actions that help communities and ecosystems become more resilient to the effects of climate change.” Specifically, this project supports EPA efforts in fostering voluntary energy efficiency improvements with the goal of reducing carbon dioxide emissions.

This solicitation specifically ties into this statutory authority by supporting market-based approaches to energy efficiency program design and delivery at the national, regional, state, and local levels. These approaches are meant to build capacity, develop market infrastructure, and serve as replicable models for long-term change, reducing GHG emissions, and helping to prevent and control air pollution.

EPA’s 2011-2015 strategic plan can be found at, <http://www.epa.gov/ocfo/plan/plan.htm> .

On page 8, Section III. Part C.2 shall now read as follows:

Proposals must support EPA Strategic Plan Goal 1, 'Taking Action on Climate Change and Improving Air Quality'-- *Reduce greenhouse gas emissions and develop adaptation strategies to address climate change, and protect and improve air quality. (See Section I)*
