Clean Air Interstate Rule (CAIR) and Federal Implementation Plans for CAIR; Corrections

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correcting amendments.

SUMMARY: In this rule, EPA is making minor corrections to the Clean Air Interstate Rule (CAIR) and the Federal Implementation Plans (FIPs) for the CAIR to clarify text that may potentially be misleading. This corrections rule does not change any of CAIR or CAIR FIPs rule requirements or substantively change the rules in any way.

DATES: *Effective Date:* These correcting amendments are effective on December 13, 2006.

ADDRESSES: The EPA has established a docket for this action under Docket ID

No. EPA-HQ-OAR-2004-0076.

Documents related to the CAIR are available in the rulemaking docket under Docket ID No. EPA-HQ-OAR-2003-0053; documents related to the CAIR FIPs are available in the rulemaking docket under Docket ID No. EPA-HQ-OAR-2004-0076. All documents in the dockets are listed on the <http://www.regulations.gov> Web site. SUPPLEMENTARY INFORMATION:

I. Background

On May 12, 2005, EPA published the Clean Air Interstate Rule (CAIR) in a final rule entitled, "Rule to Reduce Interstate Transport of Fine Particulate Matter and Ozone (Clean Air Interstate Rule); Revisions to Acid Rain Program; Revisions to NO_x SIP Call" (70 FR 25162). On April 28, 2006, EPA published Federal Implementation Plans for the CAIR as part of a final rule entitled, "Rulemaking on Section 126 Petition From North Carolina to Reduce Interstate Transport of Fine Particulate Matter and Ozone; Federal Implementation Plans To Reduce Interstate Transport of Fine Particulate Matter and Ozone; Revisions to the Clean Air Interstate Rule; Revisions to the Acid Rain Program" (71 FR 25328). The CAIR requires States to reduce emissions of nitrogen oxides and sulfur dioxide that contribute significantly to nonattainment and maintenance problems in downwind States with respect to the national ambient air quality standards for fine particulate matter (PM_{2.5}) and 8-hour ozone. The CAIR FIPs ensure that the emissions reductions required by the CAIR are achieved on schedule. As the control strategy for the FIPs, EPA adopted the model cap-and-trade programs for power plants that EPA provided in the CAIR as a control option for States, with minor changes to account for Federal, rather than State, implementation. The EPA will withdraw the FIP for any State once that State's own State implementation plan for meeting the CAIR requirements is fully approved. For a detailed description of the CAIR and CAIR FIPs, please see the rulemaking actions which are available on EPA's Web site at <http://www.epa.gov/cair> and in the **Federal Register** at and 70 FR 25162; May 12, 2005 and 71 FR 25328; April 28, 2006.

II. Why Are the Corrections Needed?

The CAIR and CAIR FIP contain minor errors that may prove to be misleading and are in need of clarification. As itemized in the regulatory text below, this corrections rule corrects typographical errors, makes minor word corrections, and corrects or provides more specificity in references to other paragraphs or sections within the regulatory text. It does not make any substantive changes to the CAIR or CAIR FIPs or change any of the rule requirements.

III. What Is the Rulemaking Procedure?

The EPA is issuing this final rule without prior proposal or the opportunity for public comment. Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that when an Agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to public interest, the Agency may issue a rule without providing notice and an opportunity to comment. The EPA has determined that there is good cause for making this action final without prior proposal or opportunity to comment because the changes to the CAIR and CAIR FIPs correct minor, nonsubstantive errors, are noncontroversial, and are consistent with the technical basis for the rules. Thus, notice and public procedure are not necessary. The EPA finds this constitutes good cause under 5 U.S.C. 553(b)(B). (See also the final sentence of section 307(d)(1) of the Clean Air Act (CAA), indicating that the good cause provisions of the APA continue to apply to rulemaking under section 307(d) of the CAA.)

Section 553(d)(3) allows an agency, upon a finding of good cause, to make a rule effective immediately. Because this action corrects errors and helps to clarify requirements in the underlying rules, EPA finds good cause to make these corrections effective immediately.

IV. Statutory and Executive Order Reviews

Under Executive Order 12866, Regulatory Planning and Review (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and, therefore, is not subject to review by the Office of Management and Budget. This action is not a "major rule" as defined by 5 U.S.C. 804(2). The corrections do not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Because EPA has made a "good cause"

finding that this action is not subject to notice-and-comment requirements under the APA or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104B4). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of the UMRA.

The corrections do not have substantial direct effects on the States, or on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, Federalism (64 FR 43255, August 10, 1999).

This action also does not significantly or uniquely affect the communities of Tribal governments, as specified in Executive Order 13175, Consultation and Coordination with Indian Tribal Governments (65 FR 67249, November 9, 2000). The corrections also are not subject to Executive Order 13045, Protection of Children from Environmental Health and Safety Risks (62 FR 19885, April 23, 1997) because this action is not economically significant.

The corrections are not subject to Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use (66 FR 28355, May 22, 2001) because this action is not a significant regulatory action under Executive Order 12866.

The corrections do not involve changes to technical standards related to test methods or monitoring methods; thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272) do not apply.

The corrections also do not involve special consideration of environmental justice-related issues as required by Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations (59 FR 7629, February 16, 1994).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the

United States. The EPA will submit a report containing this final action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the U.S. prior to publication of this action in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). The final rule will be effective on December 13, 2006.

The EPA's compliance with the above statutes and Executive Orders for the underlying rules are discussed in Section X of the CAIR at 70 FR 25305 and in Section IX of the CAIR FIPs at 71 FR 25365.

Clothianidin; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of clothianidin in or on sorghum (grain, forage, and stover) and cotton (undelinted and gin byproducts). Bayer CropScience requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). In addition, this establishes time-limited tolerances for residues of clothianidin, in or on beet, sugar, roots, and beet, sugar, tops. This action is in response to EPA’s granting of an emergency exemption under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizing use of the pesticide on sugar beet seeds. This regulation establishes a maximum permissible level for residues of clothianidin in these food commodities. The tolerances for sugar beet commodities expire and are revoked on December 31, 2009. This regulation establishes tolerances for residues of clothianidin in or on grapes, potatoes, and potatoes, granules/flakes. Arvesta Corporation requested these tolerances under the FFDCA, as amended by the Food Quality Protection Act of 1996 (FQPA).

DATES: This regulation is effective December 13, 2006. Objections and requests for hearings must be received on or before February 12, 2007, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: EPA has established a docket for this action under docket identification (ID) number EPA–HQ–OPP–2006–0902. All documents in the docket are listed in the index for the docket. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as
