UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
AIR, NOISE, AND RADIATION

DATE: March 19, 1979

SUBJECT: Notification to Federal Land Manager
Under Section 165 (d) of the Clean Air Act

FROM: David G. Hawkins, Assistant Administrator
for Air, Noise, and Radiation (ANR-443)

TO: Regional Administrator, Regions I-X

The 1977 Clean Air Amendments require the Administrator, under Section 165 (d) 2 (A), to "provide notice of the permit application to the Federal Land Manager and the Federal official charged with direct responsibility for management of any lands within a Class I area which may be affected from a proposed new facility." As you know the Amendments give the Federal Land Manager important new responsibilities for the protection of Class I areas established by Congress. In order to fulfill these responsibilities without causing undue delay in the PSD permit process, EPA should make every effort to provide the Federal Land Manager with as much time as possible to evaluate the effects of the proposed facility's emissions on the air quality related values of nearby Class I areas.

Accordingly, each Regional Office should establish a mechanism to ensure that notice is provided to the Federal Land Manager immediately upon receipt of a permit application. In some areas however, depending on the size of the facility and its proximity to a Class I area, it may also be appropriate to notify the Federal Land Manager of the pre-application conference with the owner of a proposed facility. Until we have prepared guidance on determining the impacts a source may have on "air quality related values", notice should be provided for any facility which will be located within 100 kilometers of a Class I area. Very large sources, however, may be expected to affect "air quality related values" at distances greater than 100 kilometers. The appropriate Federal Land Manager should be notified if such impacts are expected on a case-by-case basis.

2

In order to ensure adequate notification, you should notify not only the Federal Land Manager and the Federal official directly responsible for the Class I area but also certain other Federal officials who will be involved in implementing the Federal Land Managers responsibilities under the Act. With this memorandum, I have enclosed a list of the appropriate Federal officials for each of the mandatory Class I areas under the jurisdiction of the National Park Service. Similar listings for the U.S. Fish and Wildlife Service and the U.S. Forest Service will be sent to you at a later date. These lists will be updated periodically as personnel changes occur and new Class I areas are designated.

Enclosure

PERMIT NOTIFICATION LIST
