

US EPA ARCHIVE DOCUMENT

Description of TEDI0403.WK4

The TEDI database started as a list of 265 facilities. This number was trimmed to 236 by eliminating those facilities that did not report releases in 1996. Of the 236, we were unable to obtain correct coordinates for 6 facilities (The coordinates listed were outside the Parish or State boundaries). An additional 4 facilities were duplicates (multiple processes inside the same plant). This left the final total of 226 facility.

<u>Column</u>	<u>Description</u>
NAME	Facility Name
TEDIID	Combination of the Parish and SRC Code
ADDRESS	Facility Address
CITY	Facility city
TRI	TRI ID
EPAID	EPA ID
R6DOC	Description of Region 6 verification
ACCURACY	Estimated accuracy of lat/long value
METHOD	Method of deriving lat/long value
SCALE	Source map scale
DESCRIPTION	Description of the point represented by the lat/long
AIRREL	Pounds released to air in 1995
POP_50	Total Population within 4 mile radius
AAPOP_50	African-American Population within 4 mile radius
POP_12	Total Population within 2 mile radius
AAPOP_12	African-American Population within 2 mile radius
POP_03	Total Population within 1 mile radius
AAPOP_03	African-American Population within 1 mile radius
POP_01	Total Population within 1/2 mile radius
AAPOP_01	African-American Population within 1/2 mile radius
CORRPAR	Facility is within one of the 12 Industrial Parishes
CORR	Facility is within the 3 mile Mississippi River Zone
STJAMES	Facility is in St James Parish
AIR_20K	Facility released greater than 20,000 pounds
AIR_100K	Facility released greater than 100,000 pounds
112R	Facility listed in the 112R list from LDEQ.
