

US EPA ARCHIVE DOCUMENT

Values are based
on Reckhow et
al., 1980

Reckhow
estimates are by
observed
nitrogen loading
by land cover
type across the
U.S

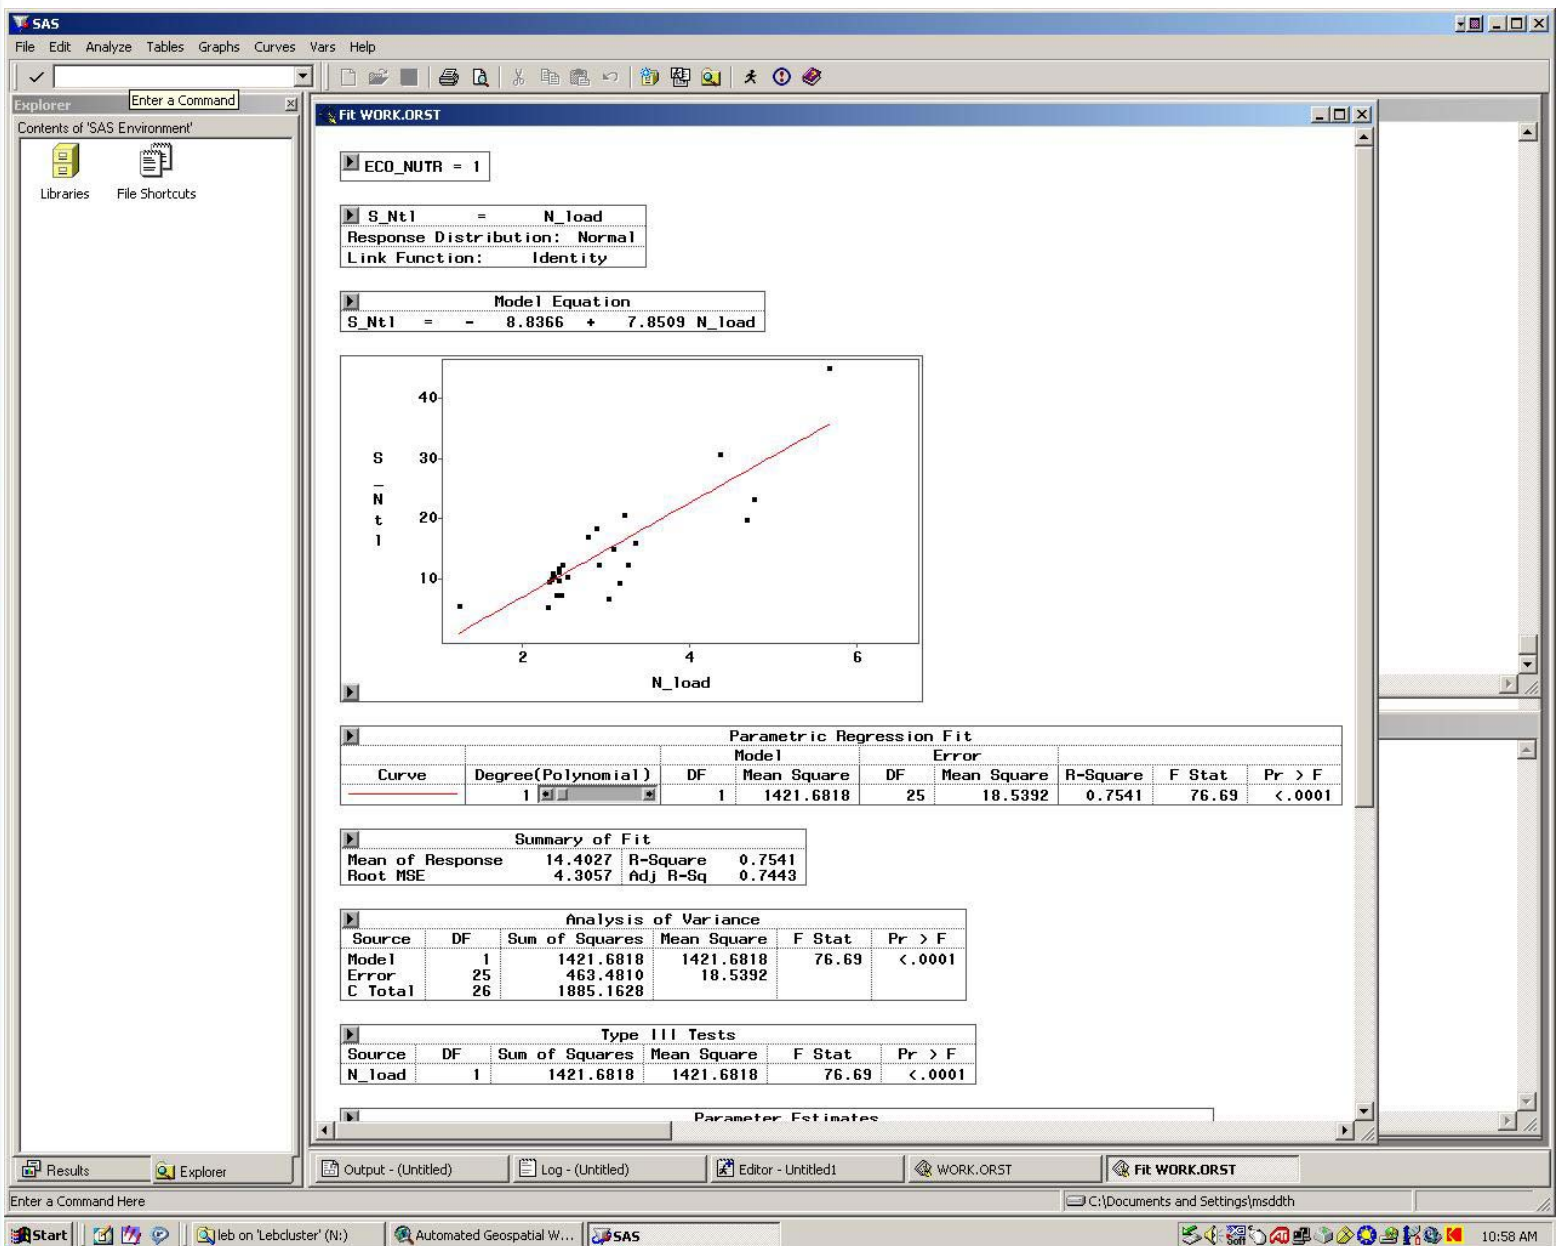

Coefficients or
weightings are
measures in
kg/ha/yr

ATtILA
N_Load based
on amounts of
certain land
cover types
using Reckhow
weighting

Nitrogen Loading ATtILA Metric N_Load

Building a scientific foundation for sound environmental decisions

Nutrient Ecoregions

Draft Aggregations of Level III Ecoregions
for the National Nutrient Strategy
