

US EPA ARCHIVE DOCUMENT

**The Pesticide Program Dialogue Committee Workgroup on Pollinator Protection  
Teleconference/Meeting date: January 25, 2-4 PM, EDT**

Call-in Number is 1-866-299-3188  
Conference Code is 703-305-5035

**Agenda will include:**

- **members present/roll call**
- **updates from each subgroup, by leaders of subgroup**
- **progress on tasks listed below for each subgroup (table below)**
- **next steps**
- **next meeting**

**Labeling Group:** Give an update on these tasks:

Explore:

- Existing labeling
- How EPA currently determines what goes on the label
- Commercial/agricultural products vs. Homeowner products
- Options to simplify/clarify label language to protect bees for both commercial products and homeowner products
- Compile details on ST task topics;
- Explore risk-assessment based labeling - - after data requirements and a risk assessment process is defined

**BMP Group:** Give an update on these tasks:

Explore:

- BMPs for growers and beekeepers
- Voluntary registries
- Case studies of successes
- Compile details on ST task topics;
- Draw conclusions and takeaway messages for successful protection of pollinators and crops.

**Communication, Education and Training Subgroup:** Give an update on these tasks:

Explore:

- Existing training information
- NAPPC's current effort
- Opportunities for communication between stakeholders
- Extension bulletins, websites, journals, farmer to farmer communications
- What information or training could be made available that will lead to win-win situations
- Compile details on ST task topics;
- Toxicity information on products - - information that may be beyond the label
- Information on inerts, etc.

**Enforcement Subgroup:** Give an update on these tasks:

Explore:

- The difference between an incident and an investigation
- Determine whether there is a standard process for how and what to report
- Information sharing between the State and EPA
