Agenda

1. Welcome - Jennifer McLain
 - The purpose of this third meeting is to apply the criteria (refined in the second meeting) for selecting pesticides for a priority list for further biomarker research and creating that list based on the criteria. The expert workgroup will consider exposure scenarios for acute and chronic poisoning, as well as evidence of acute incidents and chronic disease based on several available databases (including pesticide incident reporting data, usage data, and the literature).
2. Information from data sources (e.g. incident data) – Aaron Niman, Edward Scollon, Geoff Calvert
3. Applying Refined Criteria - Jimmy Roberts
 - Discussion of potential rankings of pesticides/additions to the preliminary pesticide list
4. Develop a priority list of specific pesticides/pesticide classes for biomarker research
5. Next Steps
 - Schedule 4th Expert Workgroup Meeting as needed
 - Doodle poll for next meeting will be sent by Garland Waleko in the near future
