**March 22, 2012**  
**21st Century Toxicology Workgroup Teleconference**  
Time: 3:00 - 5:00 p.m. (EST)

**Summary**

On March 22, 2012, the PPDC 21<sup>st</sup> Century Toxicology/New Integrated Testing Strategies Workgroup met for the final time prior to the general PPDC meeting that is scheduled to be held May 3<sup>rd</sup> and 4<sup>th</sup>. Within the workgroup three subgroups have been formed to address the following topics: 1) evaluation of data and information relevant to diagnosing overexposure to pesticides, 2) development of a priority list of pesticides for future biomarker research, and 3) future FACA workshop(s) on 21st Century toxicity tools. During the meeting, the workgroup discussed the working drafts of the project proposals being developed by each subgroup. The project proposals define the scope of work necessary to reach the goal(s) of each subgroup and include information such as key activities and milestones, resources and expertise needed. Following this meeting, the subgroups will work to finalize their project proposals and develop their presentations for the PPDC. On May 3<sup>rd</sup>, the first day of the general PPDC meeting, the workgroup will meet during lunch to finalize the project proposal presentations. The subgroup leaders will present their proposals to the PPDC on May 4<sup>th</sup>.
