Dear Mr. Ross:

On behalf of the Environmental Protection Agency (EPA), I am pleased to notify you that the *FY 2014-2018 EPA Strategic Plan* is available electronically at <http://www2.epa.gov/planandbudget/strategicplan>. A color version of the *Plan* will be available later this Spring through the same website.

As you know, the Agency's *Plan*, prepared as a periodic update under the GPRA (Government Performance and Results Act) Modernization Act of 2010 (Public Law 11-352), provides a blueprint for accomplishing our priorities over the next four years in close collaboration with our state and tribal partners and other stakeholders. It presents five strategic goals for advancing our environmental and human health outcomes, accompanied by four cross-agency strategies that set expectations for how the Agency works to achieve these goals. The *Plan* affirms our commitment to our core values of science, transparency, and the rule of law in managing our programs.

I would like to thank you and the NACEPT membership for your thoughtful comments on the draft *Plan* and look forward to our continuing collaboration as we move forward to implement our new *Plan*.

Sincerely,

A handwritten signature in blue ink that reads "Maryann Froehlich".
