

US EPA ARCHIVE DOCUMENT

**EPA will issue a
Corrective Measures Decision
at the
General Latex Chemical Company facility
in Ashland, Ohio
Public Comment Period: August 22, -Oct.07, 2013**

The U.S. Environmental Protection Agency (EPA) has overseen Corrective Action activities at the General Latex Chemical Company facility; a wholly owned subsidiary of the Dow Chemical Company. The Statement of Basis explains the proposed remedy for addressing any contaminated soil, surface water, sediment, or groundwater at the facility. The Statement of Basis also explains the rationale for selecting the remedy and summarizes any other remedies evaluated. EPA will select a final remedy for the facility after a 45-day public comment period has ended and any additional information that was received has been reviewed and considered.

More detailed corrective action information and reports; and other site related documents contained in the administrative record for this facility are available for review at these two locations:

EPA has scheduled a 45 day **public comment period** starting **Aug. 22, 2013** ending at midnight **Oct. 07**. To receive comments on the proposed actions, during this public comment period, EPA will accept written comments on the proposed determination and if requested will evaluate a public meeting.

Please forward your comments to Todd Gmitro, U.S. EPA, Remediation and Reuse Branch (LU-9J), 77 West Jackson Boulevard, Chicago, IL 60604.

EPA will review public comments received and will summarize responses in a Response to Comments document. The Response to Comments document will be drafted after the conclusion of the public comment period and will be incorporated into the administrative record.

For **questions**, please call 312-886-1248. Copies of the **relevant documents** and the Statement of Basis that outline the corrective actions are available for public inspection and copying during normal business hours at the Ashland Public Library, 224 Claremont Ave., Ashland, Ohio. Or visit the EPA Website at <http://www.epa.gov/region5/cleanup/rcra/glcc/> to review the documents regarding this proposal.
