SUPPLEMENTARY INFORMATION: In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.

NESHAP: National Emission Standards for Hazardous Air Pollutants: Standards for Hazardous Waste Combustors; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Solicitation of comment on legal analysis; extension of comment period.

SUMMARY: EPA is announcing that the comment period to the notice entitled "NESHAP: National Emission Standards for Hazardous Air Pollutants: Standards for Hazardous Waste Combustors; Solicitation of Comment on Legal Analysis," published on September 27, 2007 (72 FR 54875), is being extended until November 27, 2007. In that notice, EPA discusses the standards for hazardous waste combustors that were promulgated on October 12, 2005 (70 FR 59402), and specifically identifies which standards EPA believes are consistent with the Clean Air Act and case law, and which standards are not and need to be reexamined through a subsequent rulemaking. This analysis of the standards is being done in response to several opinions issued by the United States Court of Appeals for the District of Columbia Circuit that call into question the legality of some of the standards for hazardous waste combustors.

DATES: The comment period for this notice is extended from the original closing date of October 18, 2007 to November 27, 2007.
