PUBLIC NOTICE

**THE UNITED STATES ENVIRONMENTAL PROTECTION
AGENCY (U.S. EPA) INVITES PUBLIC COMMENT ON THE**

**PROPOSED DRAFT PCB COMMERCIAL STORAGE AND
ALTERNATIVE TECHNOLOGY
DISPOSAL APPROVAL FOR HYDRODEC NORTH AMERICA, LLC
LOCATED IN CANTON, OHIO**

Hydrodec North America, LLC has operated a facility in Canton, Ohio since 2008 which specializes in recycling spent transformer oil. The company applied to EPA for approval to store oil containing Polychlorinated Biphenyls (PCBs) at their facility and treat it using an alternative technology. This technology, Catalytic Hydrogenation, has been demonstrated to EPA and that agency has determined the process does not pose an unreasonable risk of injury to health or the environment. Because PCBs are regulated under the Toxic Substance and Control Act, companies, such as Hydrodec, must apply to EPA for an approval to dispose, treat, or store PCBs.

Today, U.S. EPA is announcing the opening of a 30 day public comment period for a draft Commercial Storage and Alternative Treatment Disposal Approval EPA is considering issuing to Hydrodec. The draft Approval and supporting documents can be found online at epa.gov/pcbs. Printed paper copies of the draft Approval and supporting information can be found at the following address:

Stark County Library
715 Market Avenue N.
Canton, OH 44702
330-452-0665

Written comments on the U.S. EPA Proposed Approval will be accepted from May 14, 2012 to June 12, 2012. Send written comments or questions to:
