TABLE OF CONTENTS FOR DRAFT REGULATORY LANGUAGE FOR FINAL HWIR-MEDIA RULE

This version indicates in redline/strikeout those changes made to the regulatory text at the request of EPA during review by the Office of Management and Budget

PART 260 - HAZARDOUS WASTE MANAGEMENT SYSTEM: GENERAL

Subpart B--Definitions

§260.10 Definitions.

PART 261--IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

Subpart A - General

§261.4 Exclusions.

PART 264--STANDARDS FOR OWNERS AND OPERATORS OF HAZARDOUS WASTE TREATMENT, STORAGE, AND DISPOSAL FACILITIES

Subpart A - General

§ 264.1 Purpose, scope and applicability.

Subpart E - Manifest System, Recordkeeping., and Reporting

§ 264.73 Operating record.

Subpart F - Releases from Solid Waste Management Units

§ 264.101 Corrective action for solid waste management units.

Subpart S - Corrective Action for Solid Waste Management Units

§ 264.552 Corrective Action Management Units (CAMU).

§ 264.553 Temporary Units (TU).

§264.554 Staging piles.

PART 265 - INTERIM STATUS STANDARDS FOR OWNERS AND OPERATORS OF
HAZARDOUS WASTE TREATMENT, STORAGE AND DISPOSAL FACILITIES

Subpart A - General

§ 265.1 Purpose, scope and applicability.

PART 268 - LAND DISPOSAL RESTRICTIONS

Subpart A - General

§ 268.2 Definitions applicable in this part.

Subpart E - Prohibitions on Storage

§ 268.50 Prohibitions on storage of restricted wastes.

PART 270 - EPA ADMINISTERED PERMIT PROGRAMS: THE HAZARDOUS WASTE PERMIT PROGRAM

Subpart A - General Information

§ 270.2 Definitions

Subpart B - Permit Application

§ 270.11 Signatories to permit applications and reports.

Subpart C - Permit Conditions

§ 270.42 Appendix 1

Subpart F - Special Forms of Permits

§ 270.68 Remedial Action Plans (RAPs)

Subpart G - Interim Status

§ 270.73 Termination of interim status.

Subpart H - Remedial Action Plans (RAPs)

GENERAL INFORMATION
§ 270.80  What is a RAP?

§ 270.85  When do I need a RAP?

§ 270.90  Does my RAP grant me any rights or relieve me of any obligations?

APPLYING FOR A RAP

§ 270.95  How do I apply for a RAP?

§ 270.100  Who must obtain a RAP?

§ 270.105  Who must sign an application for a RAP?

§ 270.110  What must I include in my application for a RAP?

§ 270.115  What if I want to keep this information confidential?

§ 270.120  To whom must I submit my RAP application?

§ 270.125  If I submit my RAP application as part of another document, what must I do?

GETTING A RAP APPROVED

§ 270.130  What is the process for approving or denying my application for a RAP?

§ 270.135  What must the Director include in a draft RAP?

§ 270.140  What else must the Director prepare in addition to the draft RAP or notice of intent to deny?

§ 270.145  What are the procedures for public comment on the draft RAP or notice of intent to deny?

§ 270.150  How will the Director make a final decision on my RAP application?

§ 270.155  May the decision to approve or deny my RAP application be administratively appealed?

§ 270.160  When does my RAP become effective?
§ 270.165 When may I begin physical construction of new units permitted under the RAP?

HOW MAY MY RAP BE MODIFIED, REVOKED AND REISSUED, OR TERMINATED?

§ 270.170 After my RAP is issued, how may it be modified, revoked and reissued, or terminated?

§ 270.175 For what reasons may the Director choose to modify my final RAP?

§ 270.180 For what reasons may the Director choose to revoke and reissue my final RAP?

§ 270.185 For what reasons may the Director choose to terminate my final RAP, or deny my renewal application?

§ 270.190 Can the decision to approve or deny a modification, revocation and reissuance, or termination of my RAP be administratively appealed?

§ 270.195 When will my RAP expire?

§ 270.200 How may I renew my RAP if it is expiring?

§ 270.205 What happens if I have applied correctly for a RAP renewal but have not received approval by the time my old RAP expires?

OPERATING UNDER YOUR RAP

§ 270.210 What records must I maintain concerning my RAP?

§ 270.215 How are time periods in the requirements of this Subpart and my RAP computed?

§ 270.220 How may I transfer my RAP to a new owner or operator?

§ 270.225 What must the State or EPA Region report about noncompliance with RAPs?

OBTAINING A RAP FOR AN OFF-SITE LOCATION

§ 270.230 May I perform remediation waste management activities under a RAP at a
location removed from the area where the remediation wastes originated?
PART 271--REQUIREMENTS FOR AUTHORIZATION OF STATE HAZARDOUS WASTE PROGRAMS

§ 271.1 Purpose and scope. Table 1.

§ 271.21 Procedures for revision of State programs. Table 1.
Draft Regulatory Language for Final HWIR-media Rule

DRAFT REGULATORY LANGUAGE FOR FINAL HWIR-MEDIA RULE

PART 260 - HAZARDOUS WASTE MANAGEMENT SYSTEM: GENERAL

Subpart B--Definitions

4. These regulations amend Section 260.10 by: (a) revising the definition of corrective action management unit, by revising the first sentence, by removing the second sentence, and; (b) by adding (3) to the definition for “facility;” (c) by revising the definition of miscellaneous unit; (d) by revising the definition of “remediation waste;” and (e) adding the definitions for remediation waste management site and staging pile. The new language reads as follows:

§260.10 Definitions.

When used in Parts 260 through 273 of this chapter, the following terms have the meanings given below:

Corrective action management unit or (CAMU) means an area within a facility that is designated by the Regional Administrator under Part 264 subpart S either: (1) for the purpose of implementing corrective action requirements under § 264.101 and RCRA 3008(h); or (2) an area that is designated for the purpose of managing remediation wastes, by the Regional Administrator in the permit for a facility that is not subject to Part 264 Subpart S corrective action requirements. A CAMU shall only be used only for the management of remediation wastes pursuant to implementing corrective action or cleanup at the facility (within the contiguous property under the control of the owner or operator).

Facility

(3) Notwithstanding paragraph (2) of this definition, a remediation waste management site does not constitute a facility for the purposes of §264.101, but is subject to such corrective action requirements if the site is located within such a facility.

Miscellaneous unit means a hazardous waste management unit where hazardous waste is treated, stored, or disposed of and that is not a container, tank, surface impoundment, pile, land treatment unit, landfill, incinerator, boiler, industrial furnace, underground injection well with appropriate technical standards under 40 CFR part 146, containment building, corrective action management unit, unit eligible for a research, development, and demonstration permit under § 270.65, or staging pile.

Remediation waste means all solid and hazardous wastes, and all media (including groundwater, surface water, soils, and sediments) and debris which contain listed hazardous wastes or which themselves exhibit a hazardous characteristic, that are managed for the purposes of implementing cleanup. Remediation wastes may originate only from within the contiguous property under the control of the owner or operator, but may include waste that has migrated beyond the facility boundary.
Remediation waste management site means a facility where an owner or operator is or will be treating, storing or disposing of hazardous remediation wastes. A remediation waste management site must be located in an area of contamination from which the remediation wastes originated or areas in close proximity to the contaminated area. A remediation waste management site is not a facility for the purpose of implementing corrective action requirements if the site is located in such a facility.

Staging pile means an accumulation of solid, non-flowing remediation waste (as defined in 40 CFR 260.10) that is not a containment building and that is used only during remedial operations for temporary storage at a facility. Staging piles must be designated by the Director in accordance with the requirements of section 40 CFR § 264.554.

PART 261--IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

7. Section 261.4 is amended by adding paragraph (g) to read as follows:

§261.4 Exclusions

(g) Dredged material that is not a hazardous waste

Dredged material that is subject to the requirements of a permit that has been issued under section 404 of the Federal Water Pollution Control Act (33 U.S.C.§1344) or section 103 of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. §1413) is not a hazardous waste. For purposes of this subsection paragraph, the following definitions apply:

(1) The term "dredged material" has the same meaning as defined in 40 CFR 232.2;

(2) The term "permit" means:
   (i) A permit issued by the U.S. Army Corps of Engineers (Corps) or an approved State under section 404 of the Federal Water Pollution Control Act (33 U.S.C.§1344); or
   (ii) A permit issued by the Corps under section 103 of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. §1413); or
   (iii) In the case of Corps civil works projects, the administrative equivalent of the permits referred to in paragraphs (i) and (ii) of this section, as provided for in Corps regulations (e.g., for example, see 33 CFR 336.1, 33 CFR 336.2, and 33 CFR 337.6).

PART 264--STANDARDS FOR OWNERS AND OPERATORS OF HAZARDOUS WASTE TREATMENT, STORAGE, AND DISPOSAL FACILITIES
11. The authority citation for part 264 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6924, and 6925.

PART 264.1

Section 264.1 is amended by adding new paragraph (j) to §264.1 to read as follows:

§ 264.1 Purpose, scope and applicability.

(j) The requirements of Subparts B, C, and D and § 264.101 of this Part do not apply to remediation waste management sites. (However, some remediation waste management sites may be a part of a facility that is subject to a traditional RCRA permit because the facility is also treating, storing or disposing of hazardous wastes that are not remediation wastes. In these cases, Subparts B, C, and D, and § 264.101 do apply to the facility subject to the traditional RCRA permit.) In lieu of the requirements of Subparts B, C, and D of this Part, owners or operators of such remediation waste management sites must:

(1) Obtain an EPA identification number by applying to the Administrator using EPA Form 8700-12;

(2) Obtain a detailed chemical and physical analysis of a representative sample of the hazardous remediation wastes to be managed at the site. At a minimum, the analysis must contain all of the information which must be known to treat, store or dispose of the waste in accordance with this Part and Part 268 of this chapter, and must be kept accurate and up to date;

(3) Prevent people who are unaware of the danger from entering the remediation waste management site, unless the owner or operator can demonstrate to the Director that:

(i) Physical contact with the waste, structures, or equipment within the active portion of the remediation waste management site will not injure people unknowing persons, or unauthorized persons or livestock who may enter the active portion of the remediation waste management site; and that

(ii) Disturbance of the waste or equipment by the unknowing persons or livestock who enter onto the active portion of the remediation waste management site, will not cause a violation of the requirements of this part;

(4) Inspect the remediation waste management site for malfunctions, deterioration, operator errors, and discharges which may be causing, or may lead to, a release of hazardous waste constituents to the environment, or a threat to human health. The owner or operator must conduct these inspections often enough to identify problems in time to correct them before they harm human health or the environment, and must remedy the problem before it leads to a human health or environmental hazard. Where a hazard is imminent or has already occurred, the owner/operator must take remedial action immediately;

(5) Provide remediation waste management site personnel with classroom instruction or on-the-
job training that teaches them how to perform their duties in a way that ensures the remediation waste management site’s compliance with the requirements of this Part, and trains them on how to respond effectively to emergencies;

(6) Take precautions to prevent accidental ignition or reaction of ignitable or reactive waste, and prevent threats to human health and the environment from ignitable, reactive and incompatible waste;

(7) For remediation waste management sites subject to regulation under Subparts I through O and Subpart X of this part, the owner/operator must design, construct, operate, and maintain a unit within a 100-year floodplain to prevent washout of any hazardous waste by a 100-year flood, unless the owner/operator can meet the demonstration of § 264.18(b);

(8) Not place any non-containerized or bulk liquid hazardous waste in any salt dome formation, salt bed formation, underground mine or cave;

(9) Have Develop and maintain a construction quality assurance program for all surface impoundments, waste piles and landfill units that are required to comply with §§ 264.221(c) and (d), 264.251(c) and (d), and 264.301(c) and (d) at the remediation waste management site, according to in accordance with the requirements of § 264.19;

(10) Have Develop and maintain procedures to prevent accidents and a accident preparedness and prevention procedures and a contingency and emergency plan to control accidents that occur. These procedures must address proper design, construction, maintenance, and operation of remediation waste management units at the site. The goal of the plan must be to minimize the possibility of, and the hazards from a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which that could threaten human health or the environment, and that is designed to minimize hazards to human health or the environment from fires, explosions, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil or surface water. The plan must explain specifically how to treat, store and dispose of should address the specific treatment, storage and disposal of the hazardous remediation waste in question, and must be implemented immediately whenever there is a fire, explosion, or release of hazardous waste or hazardous waste constituents which could threaten human health and or the environment;

(11) Designate at least one employee, either on the facility premises or on call (i.e., that is, available to respond to an emergency by reaching the facility within a short period of time quickly), with the responsibility for to coordinate coordinating all emergency response measures. This emergency coordinator must be thoroughly familiar with all aspects of the facility’s contingency plan, all operations and activities at the facility, the location and characteristics of waste handled, the location of all records within the facility, and the facility layout. In addition, this person must have the authority to commit the resources needed to carry out the contingency plan;

(12) Have Develop, maintain and implement a plan to meet the requirements of subparagraphs (j)(2) through (j)(6) and (j)(9) through (j)(10) above of this section; and

(13) Maintain records documenting compliance with subparagraphs (j)(1) through (j)(12) above of this section.

* * * * *
Add 264.73(b)(17) as follows:

(17) Any records required under § 264.1(j)(13).

Add 264.101(d) as follows:

(d) This provision section does not apply to remediation waste management sites unless they are part of a facility subject to a permit for the treatment, storage or disposal of hazardous wastes that do not constitute hazardous are not remediation wastes.

Part 264 is amended by amending §§ 264.552(a) and 264.553(a) to read as follows:

§ 264.552 Corrective Action Management Units (CAMU).

(a) For the purpose of implementing To implement remedies under § 264.101 or RCRA Section § 3008(h), or to implement remedies at a permitted facility that is not subject to Part § 264.101, the Regional Administrator may designate an area at the facility (within the contiguous property under the control of the owner or operator), as a corrective action management unit, as defined in § 260.10, in accordance with under the requirements of this section. A CAMU must be located within the contiguous property under the control of the owner/operator where the wastes to be managed in the CAMU originated.

§ 264.553 Temporary Units.

(a) For temporary tanks and container storage areas used for treatment or storage of hazardous remediation wastes during remedial activities required under § 264.101 or RCRA section 3008(h), or at a permitted facility that is not subject to Part 264.101, the Regional Administrator may designate a unit at the facility (within the contiguous property under the control of the owner or operator), as a temporary unit. A temporary unit must be located within the contiguous property under the control of the owner/operator where the wastes to be managed in the temporary unit originated. For temporary units, the Regional Administrator may determine that a replace the design, operating, or closure standard applicable to these units under parts 264 or 265 may be replaced by alternative requirements which are protective of human health and the environment....

12. Part 264 is amended by adding new § 264.554 to Subpart S to read as follows:

§ 264.554 Staging piles.

This section is written in a special format to make it easier to understand the regulatory requirements. Like other Environmental Protection Agency (EPA) regulations, this section establishes enforceable legal requirements. For the purposes of this section “I” and “you” refer to the owner/operator.
(a) **What is a staging pile?**
A staging pile is a non-containerized accumulation of solid, non-flowing remediation waste (as defined in 40 CFR 260.10) that is not a containment building and is used only during remedial operations for temporary storage at a facility. A staging pile must be located within the contiguous property under the control of the owner/operator where the wastes to be managed in the staging pile originated. Staging piles must be designated by the Director in accordance with the requirements of this section.

(b) **How is a staging pile designated?**
**When may I use a staging pile?**
You may use a staging pile to store hazardous remediation waste (or remediation waste otherwise subject to land disposal restrictions) only if you follow the standards and design criteria the Director has designated for that staging pile. The Director must designate the staging pile in either a permit or, at an interim status facility, in a closure plan or order (consistent with §§ 270.72(a)(5) and (b)(5)). The Director must establish conditions in the permit, closure plan, or order that comply with paragraphs (d) - (k) of this section.

(c) **What information must I provide to get a staging pile designated?**
When seeking a staging pile designation, you must provide:

1. Sufficient and accurate information to enable the Director to impose standards and design criteria for your staging pile in accordance with paragraphs (d)-(k) of this section;
2. Certification by an independent, qualified, registered professional engineer for technical data, such as design drawings and specifications, and engineering studies, unless the Director determines, based on information that you provide, that such certification is not necessary to ensure that a staging pile will be protective of human health and the environment; and
3. Any additional information the Director determines is necessary to protect human health and the environment.

(d) **What performance criteria must a staging pile satisfy?**
The Director must establish the standards and design criteria for the staging pile in the permit, closure plan, or order.

1. The standards and design criteria must comply with the following:
   i. The staging pile must facilitate the implementation of a reliable, effective and protective remedy;
   ii. The staging pile must be designed so as to prevent or minimize releases of hazardous wastes and hazardous constituents into the environment, and minimize or adequately control cross-media transfer, as necessary to protect human health and the environment (e.g., through the use of liners, covers, run-off/run-on controls, as appropriate); and
   iii. The staging pile must not operate for more than two years, except when the Director grants an operating term extension provided by the Director pursuant to paragraph (i) (entitled “Can I May I Receive an Operating Extension for a Staging Pile?”) of this section. You must measure the two-year limit, or other operating term specified by the Director in the permit,
closure plan, or order, must be measured from the first time you place initial placement of remediation waste into a staging pile. You must maintain a record of the date of initial placement date when you first placed remediation waste into the staging pile for the life of the permit, closure plan, or order, or for three years, whichever is longer.

(2) In setting the standards and design criteria, the Director must considering the following factors:

(i) Length of time the pile will be in operation;
(ii) Volumes of wastes to be stored you intend to store in the pile;
(iii) Physical and chemical characteristics of the wastes to be stored in the unit;
(iv) Potential for releases from the unit;
(v) Hydrogeological and other relevant environmental conditions at the facility which that may influence the migration of any potential releases; and
(vi) Potential for human and environmental exposure to potential releases from the unit;

(2) And in accordance complying with the following:

(e) Can May a staging pile receive ignitable or reactive remediation waste?
You must not place ignitable or reactive remediation waste must not be placed in a staging pile unless:

(1) You have treated, rendered or mixed the remediation waste is treated, rendered or mixed before it is you placed it in the staging pile so that:

(i) The remediation waste no longer meets the definition of ignitable or reactive under § 261.21 or § 261.23 of this chapter; and
(ii) You have complied with § 264.17(b) is complied with; or

(2) You manage the remediation waste is managed in such a way that it is protected to protect it from exposure to any material or condition which that may cause it to ignite or react.

(f) How do I handle incompatible remediation wastes in a staging pile?
The term “incompatible waste” is defined in 40 CFR § 260.10. You must comply with the following requirements for incompatible wastes in staging piles:

(1) You must not place incompatible remediation wastes in the same staging pile unless you have complied with § 264.17(b);
(2) If remediation waste in a staging pile is incompatible with any waste or material stored nearby in containers, other piles, open tanks or land disposal units (e.g. for example, surface impoundments), you must separate the incompatible materials, or protect them from one another by means of using a dike, berm, wall or other device; and
(3) You must not pile remediation waste on the same base where incompatible wastes or materials were previously piled, unless the base has been decontaminated sufficiently to ensure compliance comply with § 264.17(b).

(g) Are staging piles subject to Land Disposal Restrictions (LDR) and Minimum Technological Requirements (MTR)?
No. Placement of Placing hazardous remediation wastes into a staging pile does not constitute land disposal of hazardous wastes or creation of create a unit that is subject to the minimum
technological requirements of RCRA § 3004(o).

(h) How long may I operate a staging pile?
The Director may allow a staging pile to operate for up to two years after hazardous remediation waste is first placed into the pile. You must use a staging pile for no longer than the length of time designated by the Director in the permit, closure plan, or order (the “operating term”), except as provided in paragraph (i) of this section.

(i) Can I receive an operating extension for a staging pile?
(1) The Director may provide one operating term extension of up to 180 days beyond the operating term limit contained in the permit, closure plan, or order (see paragraph (l) of this section for modification procedures). In order to justify to the Director the need for an extension, you must provide sufficient and accurate information to enable the Director to make a determination that continued operation of the staging pile:
   (1) Continued operation of the staging pile: Will not pose a threat to human health and the environment; and
   (2) Continued operation of the staging pile: Is necessary to ensure timely and efficient implementation of remedial actions at the facility.

(2) The Director may, as a condition of the extension, specify further standards and design criteria in the permit, closure plan, or order, as necessary, to ensure protection of human health and the environment.

(j) What is the closure requirement for a staging pile located in a previously contaminated area?
(1) Within 180 days after the operating term of the staging pile expires, you must close a staging pile located in a previously contaminated area of the site by removing or decontaminating all:
   (i) Remediation waste;
   (ii) Contaminated containment system components; and
   (iii) Structures and equipment contaminated with waste and leachate.

(2) You must also decontaminate contaminated subsoils in a manner and pursuant to a schedule that the Director determines is necessary to protect human health and the environment.

(3) The Director must include the above requirements in the permit, closure plan, or order in which the staging pile is designated.

(k) What is the closure requirement for a staging pile located in an uncontaminated area?
(1) Within 180 days after the expiration of the operating term of the staging pile expires, you must close a staging pile located in an uncontaminated area of the site in accordance with the applicable requirements of § 264.258(a) and § 264.111; or according to § 265.258(a) and § 265.111.

(2) The Director must include the above requirement in the permit, closure plan, or order in which the staging pile is designated.

(l) How can my existing permit (e.g., for example, RAP), closure plan, or order be modified to allow the use of a staging pile operating term extension, must occur as follows either:
(i) Through approval by The Director in accordance with must approve the modification under the procedures for Agency-initiated permit modifications under in § 270.41; or
(ii) Upon request of the owner/operator as You must request a Class 2 modification according to the procedures under § 270.42 of this chapter.

(2) Modification of To modify a RAP to incorporate a staging pile or staging pile operating term extension, must occur according to you must comply with the RAP modification requirements under §§ 270.91–270.170 and 270.175.

(3) Modification of To modify a closure plan to incorporate a staging pile or staging pile operating term extension, must occur according to you must follow the applicable requirements under § 264.112(c) or § 265.112(c).

(3-4) Modification of To modify an order to incorporate a staging pile or staging pile operating term extension, must occur in accordance with you must follow the terms of the order and or pursuant to the applicable EPA procedures provisions of at § 270.72(a)(5) or (b)(5).

(m) Is information about the staging pile available to the public? The Director shall must document the rationale for designating a staging pile or staging pile operating term extension and make such this documentation available to the public.

PART 265 - INTERIM STATUS STANDARDS FOR OWNERS AND OPERATORS OF HAZARDOUS WASTE TREATMENT, STORAGE AND DISPOSAL FACILITIES

The authority citation for part 265 continues to read as follows:

Authority: 42 U.S.C. 6905, 6906, 6912, 6922, 6923, 6924, 6925, 6935, 6936 and 6937, unless otherwise noted.

Section 265.1(b) is amended by revising the phrase immediately after the phrase “standards of this part” in the first sentence to read as follows:

PART 268 - LAND DISPOSAL RESTRICTIONS
The authority citation for part 268 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6921, and 6924.

§ 268.2 Definitions applicable in this part.

* * * * *

(c) Land disposal means placement in or on the land, except in a corrective action management unit or staging pile, and includes ....

Amend section 268.50 to provide:
(g) The prohibition and requirements of this section do not apply to hazardous remediation wastes stored in a staging pile approved pursuant to section 264.554.

PART 270 - EPA ADMINISTERED PERMIT PROGRAMS: THE HAZARDOUS WASTE PERMIT PROGRAM

Subpart A - General Information

§ 270.2 Definitions

These regulations amend Section 270.2 by adding the definition of “Remedial Action Plan (RAP)” as follows:

Remedial Action Plan (RAP) means a special form of RCRA permit that am a facility owner or operator may obtain in lieu instead of a permit issued under sections 270.3 - 270.66, to authorize the treatment, storage or disposal of hazardous remediation waste (as defined in § 260.10) at a remediation waste management site.

Subpart B - Permit Application

Amend section 270.11 to provide:

§ 270.11(d)(i) Any person signing a document under paragraph (a) or (b) of this section shall must make the following certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with according to a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

(ii) For remedial action plans (RAPs) under Subpart H of this Part, if the operator certifies according to (i) above, then the owner may choose to make the following certification in lieu instead of (i) above:

Based on my knowledge of the conditions of the property described in the RAP and my inquiry of the person or persons who manage the system referenced in the operator’s certification, or those persons directly responsible for gathering the information, the information submitted is, upon information and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Subpart C- Permit Conditions
Amend section 270.42 Appendix 1 to provide:

<table>
<thead>
<tr>
<th>Modifications</th>
<th>Class</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>D. Closure</strong></td>
<td>2</td>
</tr>

Subpart F - Special Forms of Permits

§ 270.68 Remedial Action Plans (RAPs)
Remedial Action Plans (RAPs) are special forms of permits that are regulated under Subpart H of this Part.

Subpart G - Interim Status

§ 270.73(a) Final administrative disposition of a permit application, except an application for a remedial action plan (RAP) under Subpart H of this Part, is made; or...

Subpart H - Remedial Action Plans (RAPs)
This section of this Subpart is written in a special format to make it easier to understand the regulatory requirements. Like other Environmental Protection Agency (EPA) regulations, this section establishes enforceable legal requirements. For the purposes of this Subpart, “I” and “you” refer to the owner/operator.

GENERAL INFORMATION

§ 270.80 What is a RAP?
(a) A RAP is a special form of RCRA permit that you, as an owner or operator, may obtain, in lieu of a permit issued under sections 270.3 - 270.66, to authorize the treatment, storage or disposal of hazardous remediation waste (as defined in § 260.10) at a remediation waste management site. A RAP may only be issued for the area of contamination where the remediation wastes to be managed under the RAP originated, or areas in close proximity to the contaminated area, except as allowed in limited circumstances under § 270.230.
(b) The requirements of §§ 270.3 - 270.66 do not apply to RAPs unless specifically required under §§ 270.80 - 270.230. The definitions in § 270.2 apply to RAPs.
(c) Notwithstanding any other provision of this Part or Part 124, any document that meets...
the requirements of this section constitutes a RCRA permit under RCRA section 3005(c).

d) A RAP may be:
(1) A stand-alone document that only includes only the information and conditions required by this Subpart; or
(2) Part (or parts) of another document that includes information and/or conditions for other activities at the remediation waste management site, in addition to the information and conditions required by this Subpart.

(e) If you are treating, storing, or disposing of hazardous remediation wastes as part of a cleanup compelled by Federal or State cleanup authorities, your RAP does not affect your obligations under those authorities in any way.

(f) If you receive a RAP at a facility operating under interim status, the RAP does not terminate your interim status.

§ 270.81-270.85 When do I need a RAP?

(a) Whenever you treat, store, or dispose of hazardous remediation wastes in a manner that requires a RCRA permit under § 270.1, you must either obtain:
(1) A RCRA permit pursuant to according to §§ 270.3 - 270.66 of this Part; or
(2) A RAP pursuant to according to this Subpart.

(b) Treatment units that use combustion of hazardous remediation wastes at a remediation waste management site are not eligible for RAPs under this Subpart.

(c) You may obtain a RAP for management of hazardous remediation waste at an already permitted RCRA facility. You must have these RAPs. Such RAPs must be approved as a modification to your existing permit pursuant to according to the requirements of §§ 270.41 or 270.42 in lieu of the requirements of this Subpart. When you submit an application for such a modification, however, the information requirements in § 270.42(a)(i), (b)(iv), and (c)(iv) do not apply; instead, you must submit the information required under § 270.82(a) and (b)-270.110. When your permit is modified, the RAP is incorporated as part of the RCRA permit. Therefore when your permit (including the RAP portion) is modified, revoked and reissued, terminated or when it expires, it will be modified, revoked or and reissued, terminated or will expire in accordance with following applicable permit requirements of Part 124 and sections 270.1 - 270.66, and the permit, according to the applicable requirements of §§ 270.40 through 270.42, revoked and reissued according to the applicable requirements of §§ 270.41 and 270.43, terminated according to the applicable requirements of § 270.43, and expire according to the applicable requirements of §§ 270.50 and 270.51.

§ 270.90 Does my RAP grant me any rights or relieve me of any rights or obligations?

The provisions of § 270.4 apply to RAPs. (Note: The provisions of § 270.4(a) provide you assurance that, as long as you comply with your RAP, EPA and authorized States will consider you in compliance with Subtitle C of RCRA, and will not take enforcement actions against you. However, you should be aware of four exceptions to this provision that are listed in § 270.4.)
APPLYING FOR A RAP

§ 270.82-270.95 How do I apply for a RAP?
To apply for a RAP, you must complete an application, sign it, and submit it to the Director in accordance with the requirements of this section: Subpart.

(a) § 270.100 Who must obtain a RAP? Who applies?
When a facility or remediation waste management site is owned by one person, but the treatment, storage or disposal activities are operated by another person, it is the operator’s duty to obtain a RAP, except that the owner must also sign the RAP application.

§ 270.105 Who must sign an application for a RAP?
Both the owner and the operator must sign the RAP application. The application must be signed by both the owner and operator in accordance with § 270.11. Both the owner and the operator must also sign the certification required under § 270.11. However, the owner may choose the alternative certification under § 270.11(d)(ii) if the operator certifies under § 270.11(d)(i).

(b) § 270.110 What must I include in my application for a RAP?
You must include the following information in your application for a RAP:
(1) The name, address, and EPA identification number of the remediation waste management site;
(2) The name, address, and telephone number of the owner and operator;
(3) The latitude and longitude of the site;
(4) The United States Geological Survey (USGS) or county map showing the location of the remediation waste management site;
(5) A scaled drawing of the remediation waste management site showing:
   (i) The remediation waste management site boundaries;
   (ii) Any significant physical structures; and
   (iii) The boundary of all areas on-site where remediation waste is to be treated, stored or disposed;
(6) A specification of the hazardous remediation waste to be treated, stored or disposed of at the facility or remediation waste management site. This must include information on:
   (1) Constituent concentrations and other properties of the hazardous remediation wastes that may affect how such materials should be treated and/or otherwise managed;
   (2) An estimate of the quantity of these wastes; and
   (3) A description of the processes you will use to treat, store, or dispose of this waste to be used for treatment, storage or disposal of such waste including technologies, handling systems, design and operating parameters prior to disposal in accordance with the LDR standards of 40 CFR Part 268, as applicable;
(7) Sufficient information to demonstrate that operation in accordance with...
operations that follow the provisions in your RAP application will ensure compliance with applicable Part 264, 266, and 268 requirements;

(8h) Such information as may be necessary to enable the Regional Administrator to carry out his duties under other Federal laws as is required for traditional RCRA permits under § 270.14(b)(20);

(9i) Any other information the Director decides is necessary for demonstrating compliance with the provisions of this Subpart or for determining any additional RAP conditions that are necessary to protect human health and the environment.

(e) § 270.115 What if I want to keep this information confidential?

In accordance with 40 C.F.R. Part 2 (Public Information) allows you may to claim as business confidential any or all of the information you submit to EPA pursuant to under these regulations. You must assert any such claim at the time that you submit your RAP application or other submissions by stamping the words “confidential business information” on each page containing such information. If you do assert a claim at the time you submit the information, EPA will treat the information in accordance with the procedures in 40 C.F.R. Part 2 (Public Information). If you do not assert a claim at the time you submit the information, EPA may make the information available to the public without further notice to you. EPA will deny any requests for confidentiality of your name and/or address.

(d) § 270.120 To whom do I submit my RAP application?

You must submit your application for a RAP to the Director for approval.

(e) § 270.125 If I submit my RAP application as part of another document, what must I do?

What must I do if I submit my RAP application as part of another document?

If you submit your application for a RAP as a part of another document as described in § 270.80(d)(2) above, you must clearly identify the components of that document that constitute your RAP application.

GETTING A RAP APPROVED

§ 270.83 How will my application for a RAP be approved or denied?

§ 270.130 What is the process for approving or denying my application for a RAP?

(a) If the Director tentatively finds that your RAP application includes all of the information required by §§ 270.82(b)(1)–(9) § 270.110 and that your proposed remediation waste management activities meet the regulatory standards, the Director will make a tentative decision to approve your RAP application. Upon such tentative decision, the Director will then prepare a draft RAP and provide an opportunity for public comment prior to making a final decision on your RAP application, in accordance with this Subpart.

(b) If the Director tentatively finds that your RAP application does not include all of the information required by § 270.82(b)(1)–(9) § 270.110 or that your proposed remediation
waste management activities do not meet the regulatory standards, the Director may request additional information from you or ask you to correct deficiencies in your application. If you fail or refuse to provide any additional requested information the Director requests, or to correct any deficiencies in your RAP application, the Director may make a tentative decision to deny your RAP application. Upon such tentative decision, the Director will prepare a notice of intent to deny your RAP application (“notice of intent to deny”) and provide an opportunity for public comment prior to making a final decision on your RAP application, according to the requirements of this Subpart. The Director may deny the RAP application either in its entirety or in part.

§ 270.84 - 270.135 How will the Director prepare a draft RAP or notice of intent to deny? What must the Director include in a draft RAP?

Once the Director has tentatively decided to approve or deny your RAP application, the Director must prepare either a draft RAP or a notice of intent to deny.

(a) If the Director prepares a draft RAP, it must include the:

(1) Information required under § 270.82(b)(1) - (6) - 270.110(a) - (f); and
(2) The following terms and conditions required under § 270.85:

(1) Terms and conditions necessary to ensure that the operating requirements specified in your RAP comply with applicable Part 264, 266, and 268 requirements (including any recordkeeping and reporting requirements). In satisfying this provision, the Director may incorporate, expressly or by reference, applicable requirements of Parts 264, 266, and 268 of this chapter into the RAP or establish site-specific conditions as required or allowed by these parts;
(2) Terms and conditions in § 270.30;
(3) Terms and conditions for modifying, revoking and reissuing, and terminating your RAP, as provided in section 270.170; and
(4) Any additional terms or conditions that the Director determines are necessary to protect human health and the environment, including any terms and conditions necessary to respond to spills and leaks during use of any units permitted under the RAP.

(d) If the draft RAP is part of another document, as described in § 270.80(d)(2) above, the Director must clearly identify the components of that document that constitute the draft RAP.

§ 270.140 What else must the Director prepare in addition to the draft RAP or notice of intent to deny?

(b) Once the Director has prepared the draft RAP or notice of intent to deny, he must then:

(a) Prepare a statement of basis that briefly describes the derivation of the conditions of the draft RAP and the reasons for them, or the rationale for the notice of intent to deny; and
(b) Compile an administrative record, including:

(1) The RAP application, and any supporting data furnished by the applicant;
(2) The draft RAP or notice of intent to deny;
(3) The statement of basis and all documents cited therein (material readily available at the
issuing Regional office or published material that is generally available need not be
physically included with the rest of the record, as long as it is specifically referred to in the
statement of basis); and
(4) Any other documents that support the decision to approve or deny the RAP.
(c) The Director must make information contained in the administrative record must be
made available for review by the public upon request.

§ 270.85 270.140 What terms and conditions must a RAP the Director include in the RAP?
A RAP The Director must include the following terms and conditions in the RAP:

(a) Terms and conditions necessary to ensure that operation in accordance with the
provisions in your RAP will be in compliance the operating requirements specified in your
RAP comply with applicable Part 264, 266, and 268 requirements (including any
recordkeeping and reporting requirements). In satisfying this provision, the Director may
incorporate, expressly or by reference, applicable requirements of Parts 264, 266, and 268
of this chapter into the RAP or establish site-specific conditions as required or permitted-
allowed by these parts;

(b) Terms and conditions set forth in § 270.30;

(c) Terms and conditions specifying modification, revocation and reissuance, and
termination procedures for your RAP, as provided in sections 270.91 and 270.92; and

(d) Any additional terms or conditions that the Director determines are necessary to
protect human health and the environment, including any necessary to respond to spills
and leaks during use of any units permitted under the RAP.

§ 270.86 270.145 What are the procedures for public comment on the draft RAP or notice of
intent to deny?
(a) The Director must:
(1) Send notice to you of his intention to approve or deny your RAP application, and send
you a copy of the statement of basis;
(2) Publish a notice of his intention to approve or deny your RAP application in a major
local newspaper of general circulation;
(3) Broadcast his intention to approve or deny your RAP application over a local radio
station; and
(4) Send a notice of his intention to approve or deny your RAP application to each unit of
local government having jurisdiction over the area in which your site is located, and to
each State agency having any authority under State law with respect to any construction
or operations at the site.
(b) The notice required by paragraph (a) must provide an opportunity for the public to
submit written comments on the draft RAP or notice of intent to deny within no fewer
than at least 45 days.
(c) The notice required by paragraph (a) must include:
(1) The name and address of the office processing the RAP application;
(2) The name and address of the RAP applicant, and if different, the remediation waste management site or activity to be regulated by the RAP will regulate;

(3) A brief description of the activity to be regulated by the RAP will regulate;

(4) The name, address and telephone number of a person from whom interested persons may obtain further information, including copies of the draft RAP or notice of intent to deny, statement of basis, and the RAP application;

(5) A brief description of the comment procedures in this paragraph, and any other procedures by which the public may participate in the RAP decision;

(6) If a hearing is scheduled, the date, time, location and purpose of the hearing;

(7) If a hearing is not scheduled, a statement of procedures to request a hearing;

(8) The location of the administrative record, and times at which it will be open for public inspection; and

(9) Any additional information the Director considers necessary or proper.

(d) If, within the comment period, the Director receives written notice of opposition to his intention to approve or deny your RAP application and a request for a hearing, the Director must hold an informal public hearing to discuss issues relating to the approval or denial of your RAP application. The Director may also determine on his own initiative that an informal hearing is appropriate. The hearing must include an opportunity for any person to present written or oral comments. Whenever possible, the Director must schedule such a hearing at a location convenient to the nearest population center to the remediation waste management site and give notice in accordance with the requirements in paragraph (a). Such notice shall include the information required by paragraph (c) and:

(1) Reference to the date of any previous public notices relating to the RAP application;

(2) The date, time and place of the hearing; and

(3) A brief description of the nature and purpose of the hearing, including the applicable rules and procedures.

§ 270.87-270.150 How will the Director make a final decision on my RAP application?

(a) The Director must consider and respond to any significant comments raised during the public comment period, or during any hearing on the draft RAP or notice of intent to deny, and revise your draft RAP based on those comments, as appropriate.

(b) If the Director determines that your RAP includes the information and terms and conditions required in § 270.135, then he will issue a final decision approving your RAP and, in writing, notify you and all commenters on your draft RAP that your RAP application has been approved, after he has responded to all significant comments, revised your draft RAP based on those comments, as appropriate, and if he has determined that your RAP:

(1) includes the information required in § 270.82(b)(1) – (6); and

(2) Includes terms and conditions required by § 270.85-270.135;

he will issue a final decision approving your RAP and, in writing, notify you and all commenters on your draft RAP that your RAP application has been approved.

(c) If the Director determines that your RAP does not include the information required in
§ 270.135, then he will issue a final decision denying your RAP and, in writing, notify you and all commenters on your draft RAP that your RAP application has been denied. After he has responded to all significant comments, and if he has determined that your RAP does not:

1. Include the information required in § 270.82(b)(1) – (6); or
2. Include terms and conditions required by § 270.85.

he will issue a final decision to deny your RAP application, and, in writing, notify you and all commenters on the draft RAP or notice of intent to deny that your RAP has been denied.

(d) If the Director’s final decision is that the tentative decision to deny the RAP application was incorrect, he will withdraw the notice of intent to deny and proceed to prepare a draft RAP, in accordance with the requirements of this Subpart.

(e) When the Director issues his final RAP decision, he must include reference to the procedures for appealing the decision under § 270.89–270.155.

(f) Prior to issuing the final RAP decision, the Director must compile an administrative record. The administrative record for the final RAP must include information in the administrative record for the draft RAP (see § 270.84(b)–270.140(b)) and:

1. All comments received during the public comment period;
2. Tapes or transcripts of any hearings;
3. Any written materials submitted at public hearings;
4. The responses to comments;
5. Any new material placed in the record since issuance of the draft RAP; and
6. Any other documents supporting the RAP; and
7. A copy of the final RAP.

Material readily available at the issuing Regional office or published materials which are generally available and which are included in the administrative record need not be physically included with the rest of the record as long as it is specifically referred to in the statement of basis or the response to comments.

(g) The Director must make information contained in the administrative record available for review by the public upon request.

§ 270.89–270.155 Can the Regional Administrator’s decision to approve or deny my RAP application be administratively appealed?

(This requirement is not applicable to State programs, therefore, State programs may or may not allow for appeal. However programs implemented by EPA will allow for appeal.)

(a) Any commenter on the draft RAP or notice of intent to deny, or any participant in any public hearing(s) on the draft RAP, may appeal the Regional Administrator’s decision to approve or deny your RAP application to the EPA’s Environmental Appeals Board under § 124.19. Any person who did not file comments, or did not participate in any public hearing(s) on the draft RAP, may petition for administrative review only to the extent of the changes from the draft to the final RAP decision. Appeals of RAPs can...
be made to the same extent as for final permit decisions under § 124.15 (or a decision under § 270.29 to deny a permit for the active life of a RCRA hazardous waste management facility or unit). Instead of the notice required under § 124.19(c) and § 124.10, the Regional Administrator-Director will give public notice of any grant of review of RAPs by the Environmental Appeals Board through the same means used to provide notice under section 270.86(a)-270.145. The notice will include:

1. The briefing schedule for the appeal as provided by the Board;
2. A statement that any interested person may file an amicus brief with the Board; and
3. The information specified in § 270.86(c)-270.145(c), as appropriate.

(b) This appeal is a prerequisite to seeking judicial review of these EPA actions.

§ 270.88-270.160 When does my RAP become effective?

(a) Your RAP becomes effective 30 days after the Director notifies you and all commenters that your RAP is approved unless:
   (a) The Director specifies a later effective date in his decision;
   (b) You or another person has appealed your RAP under § 270.89-270.155 (if your RAP is appealed, and the request for review is granted under § 270.89-270.155, conditions of your RAP are stayed in accordance with § 124.16); or
   (c) No commenters requested a change in the draft RAP, in which case the RAP shall become effective immediately after issuance when it is issued.

§ 270.165 When may I begin physical construction of new units permitted under the RAP?

(b) You must not begin physical construction of new units permitted under the RAP for the treatment, storage or disposal of hazardous remediation waste prior to receiving a finally effective RAP.

HOW MAY MY RAP BE MODIFIED, REVOKED AND REISSUED, OR TERMINATED?

§ 270.91-270.170 After my RAP is issued, how can my RAP may it be modified, after issuance, revoked and reissued, or terminated?

(a) In your RAP, the Director must specify (or incorporate by reference) procedures for future modifications, revocations and reissuance, or terminations of your RAP. These procedures must provide adequate opportunities for public review and comment on any modification, or revocation and reissuance, or termination that would result in a significantly change in your management of your remediation waste, or that otherwise merits public review and comment. If your RAP has been incorporated into a traditional RCRA permit, as allowed under § 270.8-5(c), then the RAP will be modified, revoked and reissued, or terminated in accordance with following applicable permit requirements of Part 124 and sections 270.1-270.66, and the permit, according to the applicable requirements of §§ 270.40 through 270.42, revoked and reissued according to the applicable requirements of §§ 270.41 and 270.43, or terminated according to the applicable requirements of § 270.43.
§ 270.175  For what reasons may the Director choose to modify my final RAP?

(b) The Director may modify your final RAP on his own initiative only if one or more of the following reasons listed in this section exist(s). If one or more of these reasons do not exist, then if cause exists, as defined in this paragraph, or in paragraph (c), the Director may modify your final RAP on his own initiative. If cause does not exist, the Director will not modify your final RAP, except at your request. Causes of reasons for modification are:

1. You made material and substantial alterations or additions to the activity that justify the application of different conditions;

2. The Director finds new information that was not available at the time of RAP issuance and would have justified the application of different RAP conditions at the time of issuance;

3. The standards or regulations on which the RAP was based have been changed by statute, through promulgation of new or amended statutes, standards or regulations, or by judicial decision after the RAP was issued;

4. If your RAP includes any schedules of compliance, the Director may find that good cause exists for modification of reasons to modify your compliance schedule, such as an act of God, strike, flood, or materials shortage or other events over which you as the owner/operator have little or no control and for which there is no reasonably available remedy;

5. You are not in compliance with conditions of your RAP;

6. The permittee You failed in the application or during the RAP issuance process to disclose fully all relevant facts, or the permittee misrepresented any relevant facts at the time;

7. The Director has determined that the activity authorized by your RAP endangers human health or the environment and can only be remedied by RAP modification or revocation and reissuance;

8. You have notified the Director has received notification (as required in the RAP under § 270.30(l)(3)) of a proposed transfer of a RAP.

(b) Notwithstanding any other provision in this section, when the Director reviews a RAP for a land disposal facility is reviewed by the Director under § 270.92(c), the Director may modify the permit as necessary to assure that the facility continues to comply with the currently applicable requirements of parts 124, 260 - 266, and 270.

(d-x) The Director will not reevaluate the suitability of the facility location at the time of RAP modification or revocation and reissuance unless new information or standards indicate that a threat to human health or the environment exists which was unknown at the time of RAP issuance when the RAP was issued.

§ 270.180  For what reasons may the Director choose to revoke and reissue my final RAP?

(c-a) The Director may revoke and reissue your final RAP on his own initiative only if one or more reasons for revocation and reissuance exist(s). If one or more reasons do not exist, then if cause exists, as defined in this paragraph, the Director may modify or revoke and reissue your final RAP on his own initiative. If cause does not exist under this paragraph or paragraph (b), the Director will not modify or revoke and reissue your final
RAP, except at your request. If cause does not exist under this paragraph, the Director will not revoke and reissue your final RAP, except at your request. Causes Reasons for modification or revocation and reissuance are:

(1) the permittee is You are not in compliance with conditions of the your RAP;

(2) the permittee You failed in the application or during the RAP issuance process to disclose fully all relevant facts, or the permittee you misrepresented any relevant facts at the time;

(3) a determination by The Director has determined that the activity authorized by your RAP endangers human health or the environment and can only be remedied by RAP modification or revocation and reissuance modifying or revoking and reissuing; or

(4) You have notified the Director has received notification (as required in the RAP under § 270.30(l)(3)) of a proposed transfer of a RAP. the same as reasons (5) through (8) for RAP modification in § 270.175 if the Director determines that revocation and reissuance of your RAP is appropriate.

(d-b) The Director will not reevaluate the suitability of the facility location at the time of RAP modification or revocation and reissuance, unless new information or standards indicate that a threat to human health or the environment exists which was unknown at the time of RAP issuance—when the RAP was issued.

§ 270.185 For what reasons may the Director choose to terminate my final RAP, or deny my renewal application?

§ 270.92 How and when will my RAP expire or be terminated?

(a) In your RAP, the Director must specify (or incorporate by reference) the procedures under which your RAP will expire or be terminated. If your RAP has been incorporated into a traditional RCRA permit, as allowed under § 270.81(c), then the RAP will expire or be terminated in accordance with applicable permit requirements of Part 124 and sections 270.1 -- 270.66, and the permit.

(b-a) The Director may specify procedures for terminating your final RAP, or denying a renewal application based on terminate your final RAP on his own initiative, or deny your renewal application for the following reasons:

(1) your noncompliance with any condition of your RAP;

(2) your failure in the application or during the RAP issuance process to fully disclose fully all relevant facts, or your misrepresentation of any relevant facts at any time;

(3) a determination that the activity authorized by the RAP endangers human health or the environment and can only be remedied by RAP termination terminating your RAP same reasons as (5) through (7) for RAP modifications in § 270.175 if the Director determines that termination of your RAP or denial of your RAP renewal application is appropriate.

§ 270.93—270.190 Can the Director's decision to approve or deny a modification, revocation and reissuance, or termination of my RAP be administratively appealed?

(This requirement is not applicable to State programs)

(This provision is not required for State programs, therefore, State programs may or may
not allow for appeal. However programs implemented by EPA will allow for appeal.)  
(a) Any commenter on the modification, revocation and reissuance or termination, or any 
person who participated in any hearing(s) on these actions, may appeal the Director’s 
decision to modify, revoke and reissue, or terminate approve a modification, revocation 
and reissuance, or termination of your RAP, according to the provisions of § 270.89-270.155. Any person who did not file comments or did not participate in any 
public hearing(s) on the modification, revocation and reissuance or termination, may 
petition for administrative review only to the extent of the changes from the draft to the 
final RAP decision.
(b) Any commenter on the modification, revocation and reissuance or termination, or any 
person who participated in any hearing(s) on these actions, may informally appeal the 
Director’s decision to deny a request for modification, revocation and reissuance, or 
termination to the EPA’s Environmental Appeals Board. Any person who did not file 
comments, or did not participate in any public hearing(s) on the modification, revocation 
and reissuance or termination may petition for administrative review only to the extent 
of the changes from the draft to the final RAP decision.
(c) The process for informal appeals of RAPs is as follows:
(1) The person appealing the decision must send a letter to the Environmental Appeals 
Board. The letter must briefly set forth the relevant facts.
(2) The Environmental Appeals Board has 60 days after receiving the letter to act on it.
(3) If the Environmental Appeals Board does not take action on the letter within 60 days 
after receiving it, the appeal shall be considered denied.
(d) This informal appeal is a prerequisite to seeking judicial review of these EPA actions.

§ 270.195 When will my RAP expire?
(1) RAPs must be issued for a fixed term, not to exceed 10 years, although they may be 
renewed upon approval by the Director in fixed increments of no more than ten years. In 
addition, the Director must review any RAP for hazardous waste land disposal must be 
reviewed by the Director five years after the date of issuance or reissuance and you or the 
Director must follow the requirements for modifying your RAP be modified as necessary 
to assure that you continue to comply with currently applicable requirements of RCRA 
sections 3004 and 3005.

§ 270.200 How may I renew my RAP if it is expiring?
(1) If you wish to renew your expiring RAP, you must follow the process for application 
for and issuance of RAPs in this Subpart.

§ 270.205 What happens if I have applied correctly for a RAP renewal but have not received 
approval by the time my old RAP expires?
(1) If you have submitted a timely and complete application for a RAP renewal, but the 
Director, through no fault of yours, has not issued a new RAP with an effective date on or 
before the expiration date of your previous RAP, your previous RAP conditions continue 
in force until the effective date of your new RAP or RAP denial.
OPERATING UNDER YOUR RAP

§ 270.94-270.210 What records must I maintain concerning my RAP?
You are required to keep records of:
(a) All data used to complete RAP applications and any supplemental information that you submit for a period of at least 3 years from the date the application is signed; and
(b) Any operating and/or other records the Director requires you to maintain as a condition of your RAP.

§ 270.95-270.215 How are time periods in the requirements of this Subpart and my RAP computed?
(This provision is not required for State programs, therefore, State programs may or may not compute time in exactly this same manner. However programs implemented by EPA will follow this provision. (This requirement is not applicable to State programs)
(a) Any time period scheduled to begin on the occurrence of an act or event must begin on the day after the act or event. (For example, if your RAP specifies that you must close a staging pile within 180 days after the operating term for that staging pile expires, and the operating term expires on June 1, then June 2 counts as day one of your 180 days, and you would have to complete closure by November 28.)
(b) Any time period scheduled to begin before the occurrence of an act or event must be computed so that the period ends on the day before the act or event. (For example, if you are transferring ownership or operational control of your site, and wish to transfer your RAP, the new owner or operator must submit a revised RAP application no later than 90 days before the scheduled change. Therefore, if you plan to change ownership on January 1, the new owner/operator must submit the revised RAP application no later than October 3, so that the 90th day would be December 31.)
(c) If the final day of any time period falls on a weekend or legal holiday, the time period must be extended to the next working day. (For example, if you wish to appeal the Director's decision to modify your RAP, then you must petition the Environmental Appeals Board within 30 days after the Director has issued the final RAP decision. If the 30th day falls on Sunday, then you may submit your appeal by the Monday after. If the 30th day falls on July 4th, then you may submit your appeal by July 5th.)
(d) Whenever a party or interested person has the right to or is required to act within a prescribed period after the service of notice or other paper upon him or her by mail, 3 days must be added to the prescribed term. (For example, if you wish to appeal the Director's decision to modify your RAP, then you must petition the Environmental Appeals Board within 30 days after the Director has issued the final RAP decision. However, if the Director if the Director notifies you of his decision by mail, then you may have 33 days to petition the Environmental Appeals Board.)

§ 270.220 How may I transfer my RAP to a new owner or operator?
(e-a) If you wish to transfer your RAP to a new owner or operator, you must modify your
RAP—follow the requirements specified in your RAP for RAP modification to identify the new owner or operator, and incorporate such any other necessary requirements as may be necessary. These modifications do not constitute “significant” modifications for purposes of § 270.91(a)—270.170. The new owner/operator must submit a revised RAP application no later than 90 days prior to before the scheduled change along with a written agreement containing a specific date for transfer of RAP responsibility between the current you and the new permittees must be submitted to the Director.

(b) When a transfer of ownership or operational control occurs, you as the old owner or operator must comply with the applicable requirements of 40 CFR Part 264 Subpart H (Financial Requirements) until the new owner or operator has demonstrated that he is complying with the requirements of that subpart. The new owner or operator must demonstrate compliance with Part 264 Subpart H within six months of the date of the change in ownership or operational control of the facility or remediation waste management site. Upon demonstration to the Director by the new owner or operator of compliance with Subpart H to the Director, the Director will notify the old owner or operator that you no longer need to comply with Part 264 Subpart H as of the date of demonstration.

§ 270.96-270.225 What must the State or EPA Region report about noncompliance with RAPs? The State or EPA Region must report noncompliance with RAPs in accordance with the provisions of § 270.5.

OBTAINING A RAP FOR AN OFF-SITE LOCATION

§ 270.97-270.230 May I perform remediation waste management activities under a RAP at a location removed from the area where the remediation wastes originated?

(a) You may request a RAP for remediation waste management activities at a location removed from the area where the remediation wastes originated if you believe such a location would be more protective than the contaminated area or areas in close proximity.

(b) If the Director determines that an alternate alternative location, removed from the area where the remediation waste originated, is more protective than managing remediation waste at the area of contamination or areas in close proximity, then the Director may approve a RAP for this alternative location.

(c) You must request the RAP, and the Director will approve or deny the RAP, according to the procedures and requirements in this Subpart.

(d) A RAP for an alternative location must also meet the following requirements, which the Director must include in the RAP for such locations:

1. The RAP for the alternative location is issued to the person responsible for the cleanup from which the remediation wastes originated;

2. The RAP is subject to the expanded public participation requirements in §§ 124.31, 124.32, and 124.33;

3. The RAP is subject to the public notice requirements in § 124.10(c);
(4) The site permitted in the RAP may not be located within 61 meters or 200 feet of a fault which has had displacement in the Holocene time (owners and operators must you must demonstrate compliance with this standard through the requirements in § 270.14(b)(11)) (See definitions of terms in § 264.18(a)); [Comment: sites which are located in political jurisdictions other than those listed in Appendix VI of Part 264, are assumed to be in compliance with this requirement.]

(e) These alternate alternative locations retain the following benefits of remediation waste management sites, and retain the following benefits of remediation waste management sites:

(1) Exclusion from § 264.101 facility-wide corrective action; and

(2) Application of § 264.1(j) in lieu of Part 264 Subparts B, C, and D.
PART 271--REQUIREMENTS FOR AUTHORIZATION OF STATE HAZARDOUS WASTE PROGRAMS

22. The authority citation for Part 271 continues to read as follows:

23. Section 271.1(j) is amended by adding the following entries to Table 1 in chronological order by date of publication in the Federal Register, to read as follows:

§ 271.1 Purpose and scope.

(j) * * *

TABLE 1. - REGULATIONS IMPLEMENTING THE HAZARDOUS AND SOLID WASTE AMENDMENTS OF 1984

\(^5\) These regulations implement HSWA only to the extent that they apply to the standards for staging piles and to §§ 264.1(j) and 264.101(d).

24. Section 271.21 is amended to add paragraph (h) to read as follows:

§ 271.21(h) Abbreviated authorization revisions. This abbreviated procedure applies to State Program revisions for the Federal rulemakings listed in Table 1 of this section. The abbreviated procedures are as follows:

(1) An application for a revision of a State's program for the rulemakings listed in Table 1 of this section shall consist of:

(i) A certification statement from the State that its laws and regulations provide authority that is equivalent to, and no less stringent than, the designated minor rules or parts of rules specified in Table 1 of this section, and which includes references to the specific statutes, administrative regulations and where appropriate, judicial decisions. State statutes and regulations cited in the certification statement shall be fully effective lawfully adopted at the time the certification statement is signed and fully effective by the time the program revisions are

approved; and
(ii) Copies of all applicable State statutes and regulations.

(2) Within 30 days of receipt by EPA of a State's application for final authorization to implement a rule specified in Table 1 of this section, if the Administrator determines that the application is not complete or contains errors, the Administrator shall notify the State. This notice shall include a concise statement of the deficiencies which form the basis for this determination. The State shall address all deficiencies and resubmit the application to EPA for review.

(3) For purposes of this section an incomplete application is one where considered incomplete when:
   (i) Copies of applicable statutes or regulations were not included;
   (ii) The statutes or regulations relied on by the State to implement the program revisions are not yet in effect lawfully adopted at the time the statement is signed or fully effective by the time the program revisions are approved;
   (iii) In the certification statement, the citations to the specific statutes, administrative regulations and where appropriate, judicial decisions are not included or incomplete; or
   (iv) The State is not authorized to implement the prerequisite RCRA rules as specified in paragraph (h)(5) of this section.

(4) Within 60 days after receipt of a complete final application from a State for final authorization to implement a rule or rules specified in Table 1 of this section, the Administrator shall publish a notice of the decision to grant final authorization in accordance with the procedures for immediate final publication in paragraph (b)(3) of this section.

(5) To be eligible to use the procedure in this paragraph, a State must be authorized for the provisions which the rule listed in Table 1 to 271.21 amends.

24. Section 271.21 is amended by adding Table 1 to read as follows:
