COMMENTER Edison Electric Institute

SUBJECT TIME

COMMENT I write on behalf of the Edison Electric Institute, the American Public Power Association, the National Rural Electric Cooperative Association and the Utility Solid Waste Activities Group (collectively "USWAG") to request a brief extension to the comment period for the proposed rule on mercury-containing lamps (59 Fed. Reg. 38288 (July 27, 1994)), until October 14, 1994. USWAG will be submitting joint comments on behalf of all four associations and respectfully requests this brief extension to better coordinate our efforts amongst our various members and to allow for the timely completion of technical data we are generating regarding potential mercury air emission impacts from the management of fluorescent bulbs. USWAG wishes to provide the Agency with the most useful and helpful comments possible and believes that this brief extension will allow us to do so.

RESPONSE

On September 16, 1994 (59 FR 47583), EPA extended the comment period for another 60 days until November 25, 1994. EPA believes that the 120-day comment period has been sufficient for interested parties to submit comments addressing the regulatory management options for hazardous waste lamps in the proposed rule (July 27, 1994; 59 FR 38288).

COMMENTER Environmental Defense Fund

SUBJECT TIME

COMMENT This letter requests a 30-day extension of the comment due date of September 26, 1994 for the proposed rule covering "Hazardous Waste Management System: Modification of the Hazardous Waste Program; Mercury-Containing Lamps" (59 Fed. Reg. 38288). Your assistance in this matter is greatly appreciated. Please let me know as soon as possible whether or not this request is granted.

RESPONSE

On September 16, 1994 (59 FR 47583), EPA extended the comment period for another 60 days until November 25, 1994. EPA believes that the 120-day comment period has been sufficient for interested parties to submit comments addressing the regulatory management options for hazardous waste lamps in the proposed rule (July 27, 1994; 59 FR 38288).

COMMENTER Michael Bender

SUBJECT TIME

COMMENT The purpose of this letter is to confirm in writing our recent

phone conversation regarding extending the comment period for EPA's proposed rule on the management of mercury-containing lamps (e.g., fluorescent and high intensity discharge lamps).

On behalf of the lamp recyclers listed below, I hereby request that EPA extend the comment period on the proposed lamp management rule for an additional thirty days. Thank you for your interest in this matter. If I can be of assistance, please call.

RESPONSE

On September 16, 1994 (59 FR 47583), EPA extended the comment period for another 60 days until November 25, 1994. EPA believes that the 120-day comment period has been sufficient for interested parties to submit comments addressing the regulatory management options for hazardous waste lamps in the proposed rule (July 27, 1994; 59 FR 38288).
