

US EPA ARCHIVE DOCUMENT

## RCRA REVISION CHECKLIST 34

## Land Disposal Restrictions

51 FR 40572-40654

November 7, 1986

as amended on June 4, 1987, at 52 FR 21010-21018  
(HWSA Cluster I)

Notes: 1) The following Part 268 sections are not delegable to States because of the national concerns which must be considered when decisions are made relative to them: 268.5 (case-by-case effective date extensions); 268.42(b) (application for an alternate treatment method); and 268.44 (variance from a treatment standard). The preamble (51 FR 40618) to the November 7, 1986 rule (the first LDR rule), addressed by this present checklist, clearly states that 268.5 is not delegable. The second LDR rule, called the California List Waste Rule (52 FR 25760, July 8, 1987; Revision Checklist 39), clarified that 268.42(b) and 268.44 are nondelegable. It also clarified the delegability of 268.6. "No migration" petitions under 268.6 will be handled by EPA, even though States may be authorized to grant these petitions in the future. States have the authority to grant such petitions under RCRA Section 3006 because such decisions do not require a national perspective as is the case for decisions under 268.5, 268.42(b), or 268.44. However, EPA has had few opportunities to implement the land disposal restrictions and expects to gain valuable experience and information from reviewing "no-migration" petitions.

2) In the past, the nondelegable sections/paragraphs of the LDR regulations have been omitted from the LDR checklists because States could not assume the authority for them. However, this procedure has led to confusion among the States on how to handle the sections/paragraphs in their code. For this reason, the Agency has decided to include these nondelegable sections on the LDR checklists. To differentiate these sections from the delegable portions of the LDR restrictions, asterisks precede (a single row) and follow (a double row) each non-delegable section. If States have already filled out a version of Revision Checklist 34 which does not include the nondelegable sections, they need not fill out a revised version containing these sections. This change in format was made only to improve clarity.

The Agency suggests that States incorporate the nondelegable portions of the LDR regulation into their regulations because this incorporation aids the regulated community in knowing that the extensions, exemptions and variances addressed by the nondelegable sections of code are available to them. It is essential, however, that States leave the terms "Administrator", "Federal Register" and "Agency" unchanged, i.e., States may not substitute analogous State terms for these Federal terms. Similarly, States incorporating by reference must be careful to exclude these sections from blanket substitutions of State terms for Federal terms. For a more complete discussion of issues surrounding nondelegable sections, see Appendix J of the State Authorization Manual (SAM).

3) Note that while 268.40 is delegable to States, "Administrator" in the following phrase "Approved by the Administrator under the procedures set for this in 268.42(b)" should not be replaced with an analogous State term because it is referring to decisions under 268.42(b). Such decisions will be made by the EPA Administrator.

## RCRA REVISION CHECKLIST 34: Land Disposal Restrictions (cont'd)

4) Revision Checklist 50 (53 FR 31138, August 17, 1988) amends certain sections of code addressed by Revision Checklist 34, but does not affect the delegability outlined in the previous note. Other related checklists include Revision Checklist 62 (54 FR 18836, May 2, 1989), Revision Checklist 63 (54 FR 26594, June 23, 1989), Revision Checklist 66 (54 FR 36967, September 6, 1989), Revision Checklist 78 (55 FR 22520, June 1, 1990), and Revision Checklist 83 (56 FR 3864).
