RCRA REVISION CHECKLIST 53 (AMENDED)

Identification and Listing of Hazardous Waste;  
and Designation, Reportable Quantities, and Notification  
53 FR 35412-35421  
September 13, 1988  
(Non-HSWA Cluster V)

Note: 1) The listing of K064, K065, K066, K090 and K091 was remanded by the U.S. Court of Appeals for the D.C. Circuit (American Mining Congress vs. the U.S. Environmental Protection Agency, 907 F. 29 1179 (D.C. Cir. 1990)). As such, States are not required to list these wastes at this time. However, since these wastes have been removed from the 261.4(b)(7) exclusion, they may be brought under regulation as characteristic hazardous wastes, especially under the Toxicity Characteristic.

2) Revision Checklist 53 has generally been superseded by Revision Checklists 65 and 71, except for the K088 listing, spent potliners from primary aluminum reduction.
