RCRA REVISION CHECKLIST 61

Changes to Interim Status Facilities for Hazardous Waste Management;
Modification of Hazardous Waste Management Permits;
Procedures for Post-Closure Permitting
54 FR 9596-9609
March 7, 1989
(Non-HSWA Cluster V)

Note: This rule does not impose a requirement or prohibition pursuant to HSWA. However, portions of the Federal requirements may be necessary to implement HSWA. These necessary rules will be immediately effective and administered by EPA in all States pursuant to RCRA Section 3006(g). For example, use of a Class I modification to add waste codes and/or narrative descriptions of treatment residues to RCRA permits may be necessary in appropriate situations to effectively implement the treatment requirements and prohibitions of the HSWA land disposal restrictions program. Other examples involve a change in interim status needed to comply with an EPA-issued Section 3008(h) corrective action order to comply with the minimum technology requirements of HSWA Section 3004(b).
