RCRA REVISION CHECKLIST 66

Land Disposal Restrictions; Correction to the
First Third Scheduled Wastes
54 FR 36967
September 6, 1989
as amended on June 13 1990, at 55 FR 23935
(HWSA Cluster II)

Notes: 1) This is a correction and clarification of 53 FR 31138 (August 17, 1988) and 54 FR 18836 (May 2, 1989) addressed by Revision Checklists 50 and 62 which cover the First Third Scheduled Wastes. As such, States which are not yet authorized for these checklists are encouraged to apply for Revision Checklist 66 at the same time the provisions in Revision Checklists 50 and 62 are applied for. States already authorized for Revision Checklists 50 and 62 requirements are encouraged to adopt the corrections addressed by Checklist 66 as quickly as possible.

2) The following Part 268 sections are not delegable to States because of the national concerns which must be examined when decisions are made relative to them: 268.5 (case-by-case effective date extensions); 268.42(b) (application for alternate treatment method); and 268.44 (variance from a treatment standard). "No migration" petitions under 268.6 will be handled by EPA, even though States may be authorized to grant such petitions in the future. States have the authority to grant such petitions under RCRA Section 3006 because such decisions do not require a national perspective, as is the case for decisions under 268.5, 268.42(b) or 268.44. However, EPA has had few opportunities to implement the land disposal restrictions and expects to gain valuable experience and information from reviewing "no-migration" petitions.

3) In the past, the nondelegable sections/paragraphs of the LDR regulations have been omitted from the LDR checklists because States could not assume the authority for them. However, this procedure has led to confusion among the States on how to handle the sections/paragraphs in their code. For this reason, the Agency has decided to include these nondelegable sections on the LDR checklists. To differentiate these sections from the delegable portions of the LDR restrictions, asterisks precede (a single row) and follow (a double row) each non-delegable section. If States have already filled out a version of Revision Checklist 66 which does not include the nondelegable sections, they need not fill out a revised version containing these sections. This change in format was made only to improve clarity.

The Agency suggests that States incorporate the nondelegable portions of the LDR regulation into their regulations because this incorporation aids the regulated community in knowing that the extensions, exemptions and variances addressed by the nondelegable sections of code are available to them. It is essential, however, that States leave the terms "Administrator", "Federal Register" and "Agency" unchanged, i.e., States may not substitute analogous State terms for these Federal terms. Similarly, States incorporating by reference must be careful to exclude these sections from blanket substitutions of State terms for Federal terms. For a more complete discussion of issues surrounding nondelegable sections, see Appendix J of the State Authorization Manual (SAM).

<p>1 An error in the September 6, 1989 rule (54 <u>FR</u> 36967) makes it appear that the revisions to 268.8(a) include the removal of 268.8(a)(4). This was not the Agency's intent and 268.8(a)(4) remains in the Federal code as introduced by Revision Checklist 50.</p> <p>2 See technical correction at 55 <u>FR</u> 23935, June 13, 1990.</p>
