RCRA REVISION CHECKLIST 88

Administrative Stay for K069 Listing  
 56 FR 19951  
 May 1, 1991  
 (RCRA Cluster I, non-HSWA)

Note: This May 1, 1991 (56 FR 19951) notice administratively stays the K069 listing so that the listing does not apply to slurries generated from pollution control devices that are intended to capture acid gases and are not dedicated chiefly to control of particulate air emissions. The stay remains in effect until further administrative action is taken. If EPA takes further action affecting this stay, EPA will publish a notice of the action in the Federal Register. A checklist is necessary because the code is affected. As this change narrows the scope of this listing, States are not required to adopt it; thus, this checklist has been designated as optional.
