RCRA REVISION CHECKLIST 149
(WITHDRAWN)

Organic Air Emission Standards for
Tanks, Surface Impoundments, and Containers; Amendment III
61 FR 4903-4916
February 9, 1996
(RCRA Cluster VI, HSWA provisions)

Note: This checklist has been withdrawn because it amends Revision Checklist 138 (December 6, 1994; 59 FR 62896) which has been withdrawn by EPA. Its applicable provisions are included in Revision Checklist 154 which is a consolidation all of the rules associated with the organic air emission standards for tanks, surface impoundments, and container requirements (Subpart CC). This consolidated revision checklist is placed in RCRA Cluster VII.

For further discussion on the withdrawal of Revision Checklist 149, refer to the memorandum attached to Revision Checklist 138 from Bruce Jordan, EPA Office of Air Quality Planning and Standards, that strongly encourages States to not adopt the December 6, 1994 rule, as well as its related amendments, until a final amendment to Subpart CC is issued. This amendment was published in the Federal Register on November 25, 1996 at 61 FR 59931. EPA encourages States to adopt Revision Checklist 154 which includes all of the following notices: 59 FR 62896, December 6, 1994; 60 FR 26828, May 19, 1995; 60 FR 56952, November 13, 1995; 61 FR 28508, June 5, 1996; 60 FR 50426, September 29, 1995; 61 FR 4903, February 9, 1996; and 61 FR 59931, November 25, 1996.
