[EPA # F-96-PH3F-FFFFF; FRL-5528-1]

RIN 2050-AD38

Land Disposal Restrictions Phase III--Decharacterized Wastewaters, Carbamate Wastes, and Spent Potliners

AGENCY: Environmental Protection Agency (EPA).

ACTION: Technical correction.

SUMMARY: On April 8, 1996, EPA published regulations covering both congressionally-mandated and court-ordered prohibitions on land disposal of certain hazardous wastes. On the same day, EPA published a partial withdrawal and correction of those regulations to the extent the Land Disposal Program Flexibility Act (LDPFA) (signed by the President on March 26, 1996) revoked most of the court-ordered prohibitions. This notice corrects technical errors in the final regulations and the partial withdrawal notice.

EFFECTIVE DATE: This rule is effective on June 28, 1996.

ADDRESSES: Supporting materials are available for viewing in the RCRA Information Center (RIC), located at Crystal Gateway One, 1235 Jefferson Davis Highway, First Floor, Arlington, VA. The Docket Identification Number is F-96-PH3F-FFFFF. The RCRA Docket is open from 9 a.m. to 4 p.m. Monday through Friday, except for Federal holidays. The public must make an appointment to review docket materials by calling (703) 603-9230. The public may copy a maximum of 100 pages from any regulatory document at no cost. Additional copies cost \$0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information contact the RCRA Hotline at (800) 424-9346 (toll free) or (703) 920-9810 in the Washington, DC metropolitan area. For information on this notice contact Michael Petruska (5302W), Office of Solid Waste, 401 M Street, S.W., Washington, DC 20460, (703) 308-8434.

>>>> The preamble has not been included in this file. <<<<

For the reasons set forth in the preamble, title 40, chapter I of the Code of Federal Regulations is amended as follows:

>>>> Part 148 has not been included because it is not required as part of a State's Hazardous Waste Program. <<<<

PART 268--LAND DISPOSAL RESTRICTIONS

3. The authority citation for part 268 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6921, and 6924.

Subpart A--General

4. In section 268.1, paragraph (c) is amended by adding paragraphs (3) and (4) to read as follows:

§ 268.1 Purpose, scope and applicability.

* * * * *

(c) * * *

(3) Wastes that are hazardous only because they exhibit a hazardous characteristic, and which are otherwise prohibited under this part, or part 148 of this chapter, are not prohibited if the wastes:

(i) Are disposed into a nonhazardous or hazardous injection well as defined under 40 CFR 146.6(a); and

(ii) Do not exhibit any prohibited characteristic of hazardous waste identified in 40 CFR part 261, subpart C at the point of injection.

(4) Wastes that are hazardous only because they exhibit a hazardous characteristic, and which are otherwise prohibited under this part, are not prohibited if the wastes meet any of the following criteria, unless the wastes are subject to a specified method of treatment other than DEACT in § 268.40, or are D003 reactive cyanide:

(i) The wastes are managed in a treatment system which subsequently discharges to waters of the U.S. pursuant to a permit issued under section 402 of the Clean Water Act; or

(ii) The wastes are treated for purposes of the pretreatment requirements of section 307 of the Clean Water Act; or

(iii) The wastes are managed in a zero discharge system engaged in Clean Water Act-equivalent treatment as defined in § 268.37(a); and

(iv) The wastes no longer exhibit a prohibited characteristic at the point of land disposal (i.e., placement in a surface impoundment).

* * * * *

5. Section 268.2 is amended by revising paragraph (j) to read as follows:

§ 268.2 Definitions applicable in this part.

* * * * *

(j) "Inorganic metal-bearing waste" is one for which EPA has established treatment standards for metal hazardous constituents, and which does not otherwise contain significant organic or cyanide content as described in § 268.3(c)(1), and is specifically listed in appendix XI of this part.

* * * * *

6. Section 268.3 is amended by revising paragraph (b) to read as follows:

§ 268.3 Dilution prohibited as a substitute for treatment.

* * * * *

(b) Dilution of wastes that are hazardous only because they exhibit a characteristic in treatment systems which include land-based units which treat wastes subsequently discharged to a water of the United States pursuant to a permit issued under section 402 of the Clean Water Act (CWA), or which treat wastes in a CWA-equivalent treatment system, or which treat wastes for the purposes of pretreatment requirements under section 307 of the CWA is not impermissible dilution for purposes of this section unless a method other than DEACT has been specified in § 268.40 as the treatment standard, or unless the waste is a D003 reactive cyanide wastewater or nonwastewater.

* * * * *

7. Section 268.39 is amended by revising paragraph (e) to read as follows:

§ 268.39 Waste specific prohibitions--spent aluminum potliners; reactive; and carbamate wastes.

* * * * *

(e) Between July 8, 1996, and April 8, 1998, the wastes included in paragraphs (a), (c), and (d) of this section may be disposed in a landfill or surface impoundment, only if such unit is in compliance with the requirements specified in § 268.5(h)(2).

* * * * *

8. Section 268.40 is amended by revising the first sentence of paragraph (a), and paragraph (e) to read as follows:

§ 268.40 Applicability of treatment standards.

(a) A prohibited waste identified in the table ``Treatment Standards for Hazardous Wastes'' may be land disposed only if it meets the requirements found in the table. * * *

* * * * *

(e) For characteristic wastes (D001-D003, and D012-D043) that are subject to treatment standards in the following table ``Treatment Standards for Hazardous Wastes,'' all underlying hazardous constituents (as defined in § 268.2(i)) must meet Universal Treatment Standards, found in § 268.48, ``Table UTS,' prior to land disposal as defined in § 268.2(c) of this part.

* * * * *

Sec. 268.40 [Amended]

9. In § 268.40, the table at the end of the section is amended by removing the entries for K140, P187, P193, P195, P200, U360-U363, U368-U371, U374, U380, U388, U397-U399, U405, U406, and U408; and by revising the entries for D001-D003, D012-D043, F006, F007, F010, F037, F039, K006, K008, K062, K108, K156-K161, P093, P196, P202, U277, U365, U366, U375-U379, U381-U387, U389-U396, U400-U404, and U407; and by adding the entries for U278, U409, U410, and U411; and by adding footnotes 8 and 9 to read as follows:

* * * * *

Note: Amendments to the § 268.40 table "Treatment Standards for Hazardous Wastes" are not included in this file. Amendments to this table were made April 8, 1996 (61 FR 15565 and 61 FR 15660), June 28, 1996 (61 FR 33680) and July 10, 1996 (61 FR 36419). Because these Federal Register notices will be consolidated into a single checklist, Revision Checklist 151, the table has been compiled only once. The table combining the corrections of April 8, 1996 (61 FR 15565 and 61 FR 15660), June 28, 1996 (61 FR 33680) and July 10, 1996 (61 FR 36419) can be found in the file FR151-4.ZIP.

10. In subpart D, § 268.48 the table in paragraph (a) is revised to read as follows:

Sec. 268.48 Universal treatment standards.

(a) * * *

Note: Amendments made to the § 268.48(a) Universal Treatment Standards table on April 8, 1996 (61 FR 15565) and in this notice (June 28, 1996; 61 FR 33680) are combined in the table published below.

§268.48 Universal Treatment Standards

(a) * * *

Universal Treatment Standards
[Note: NA means not applicable.]

Regulated constituent/common name	CAS ¹ number	Wastewater standard	Nonwastewater standard
		Concentration in mg/l ²	Concentration in mg/kg ³ unless noted as "mg/l TCLP"

II. Inorganic Constituents:

Antimony	7440-36-0	1.9	2.1 mg/l TCLP
Arsenic	7440-38-2	1.4	5.0 mg/l TCLP
Barium	7440-39-3	1.2	7.6 mg/l TCLP
Beryllium	7440-41-7	0.82	0.014 mg/l TCLP
Cadmium	7440-43-9	0.69	0.19 mg/l TCLP
Chromium (Total)	7440-47-3	2.77	0.86 mg/l TCLP
Cyanides (Total) ⁴	57-12-5	1.2	590
Cyanides (Amenable) ⁴	57-12-5	0.86	30
Fluoride ⁵	16984-48-8	35.	NA
Lead	7439-92-1	0.69	0.37 mg/l TCLP
Mercury--Nonwastewater from Retort	7439-97-6	NA	0.20 mg/l TCLP
Mercury--All Others	7439-97-6	0.15	0.25 mg/l TCLP
Nickel	7440-02-0	3.98	5.0 mg/l TCLP
Selenium	7782-49-2	0.82	0.16 mg/l TCLP
Silver	7440-22-4	0.43	0.30 mg/l TCLP
Sulfide	18496-25-8	14.	NA
Thallium	7440-28-0	1.4	0.78 mg/l TCLP
Vanadium ⁴	7440-62-2	4.3	0.23 mg/l TCLP
Zinc ⁵	7440-66-6	2.61	5.3 mg/l TCLP

¹ CAS means Chemical Abstract Services. When the waste code and/or regulated constituents are described as a combination of a chemical with its salts and/or esters, the CAS number is given for the parent compound only.

² Concentration standards for wastewaters are expressed in mg/l and are based on analysis of composite samples.

³ Except for Metals (EP or TCLP) and Cyanides (Total and Amenable) the nonwastewater treatment standards expressed as a concentration were established, in part, based upon incineration in units operated in accordance with the technical requirements of 40 CFR part 264, subpart O or 40 CFR part 265, subpart O, or based upon combustion in fuel substitution units operating in accordance with applicable technical requirements. A facility may comply with these treatment standards according to provisions in 40 CFR 268.40(d). All concentration standards for nonwastewaters are based on analysis of grab samples.

⁴ Both Cyanides (Total) and Cyanides (Amenable) for nonwastewaters are to be analyzed using Method 9010 or 9012, found in "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods", EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11, with a sample size of 10 grams and a distillation time of one hour and 15 minutes.

⁵ These constituents are not "underlying hazardous constituents" in characteristic wastes, according to the definition at §268.2(i).

Note: NA means not applicable.
