South Dakota: Final Authorization of State Hazardous Waste Management Program Revision and Incorporation by Reference of Approved State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule and response to comments.

SUMMARY: The EPA is granting final authorization to the hazardous waste program revisions submitted by South Dakota. The Agency published a Proposed Rule on September 27, 2005, and provided for public comment. The comment period ended on October 27, 2005. No comments were received regarding Resource Conservation and Recovery Act (RCRA) program issues. There was one comment from South Dakota State Attorney General regarding Indian country language. No further opportunity for comment will be provided. This final rule also codifies and incorporates by reference the authorized provisions of the South Dakota regulations in Title 40 of the Code of Federal Regulations (CFR) part 272.

DATES: This final rule is effective on March 8, 2006. The incorporation by reference of authorized provisions in the South Dakota regulations contained in this rule is approved by the Director of the Federal Register as of March 8, 2006, in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

SUPPLEMENTARY INFORMATION:

I. Authorization of Revisions to South Dakota's Hazardous Waste Program and Correction

On October 25, 2004, South Dakota submitted final complete program revision applications seeking authorization of their changes in accordance with 40 CFR 271.21. We now make a Final decision that South Dakota's hazardous waste program revisions satisfy all of the requirements necessary to qualify for Final authorization. For a list of rules that become effective with this Final Rule, please see the Proposed Rule published in the September 27, 2005 **Federal Register** at 70 FR 56419. EPA is making one correction to the Proposed Rule. In the list of authorized provisions for Checklists 154 through 154.6 (Column 1, page 56421), the effective date for "74:36:11:01" is January 2, 2005.

Response to Comments: EPA proposed to authorize South Dakota's State Hazardous Waste Management Program Revisions on September 27, 2005 (70 FR 56419). EPA received only one comment from the State of South Dakota, objecting to EPA's definition of Indian country, where the State is not authorized to administer its program. Specifically, the State disagreed that all "trust land" in South Dakota is Indian country. However, in the comment letter, the State of South Dakota conveyed to EPA that "while we [the State] continue to object and disagree on this issue, the state will accept EPA's authorization of the hazardous waste program revisions as described in EPA's September 27, 2005 notice in the **Federal Register**."

EPA maintains the interpretation of Indian country in South Dakota as described in the September 27, 2005 **Federal Register** notice of proposed rulemaking. Further explanation of this interpretation of Indian country can be found at 67 FR 45684 through 45686 (July 10, 2002).

II. Incorporation by Reference

In the Proposed Rule published on September 27, 2005 (70 FR 56419), EPA also proposed to codify EPA's authorization of South Dakota's base hazardous waste management program

and its revisions to that program. In today's action, EPA is amending § 272.2101 to incorporate by reference South Dakota's authorized hazardous waste regulations. Section 272.2101 also references the demonstration of adequate enforcement authority, including procedural and enforcement provisions, which provides the legal basis for the State's implementation of the hazardous waste management program. In addition, § 272.2101 references the Memorandum of Agreement, the Attorney General's Statements, and the Program Description which are evaluated as part of the approval process of the hazardous waste management program in accordance with Subtitle C of RCRA. The September 27, 2005 Proposed Rule provides details about State provisions which are not part of the codification, as well as the effect of South Dakota's codification on enforcement and on Federal requirements promulgated under the Hazardous and Solid Waste Amendments of 1984 (HSWA).

III. Administrative Requirements

The Office of Management and Budget has exempted this action from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993), and therefore this action is not subject to review by OMB. This action authorizes and codifies State requirements for the purpose of RCRA 3006 and imposes no additional requirements beyond those imposed by State law. Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this action authorizes and codifies pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4). For the same reason, this action also does not significantly or uniquely affect the communities of Tribal governments, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely authorizes and codifies State requirements as part of the State RCRA hazardous waste program without

altering the relationship or the distribution of power and responsibilities established by RCRA. This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks. This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001), because it is not a significant regulatory action under Executive Order 12866.

Under RCRA 3006(b), EPA grants a State's application for authorization as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law for EPA, when it reviews a State authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major

rule" as defined by 5 U.S.C. 804(2). This action will be effective March 8, 2006.

Montana: Incorporation By Reference of Approved State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Resource Conservation and Recovery Act, as amended (RCRA), allows EPA to authorize State hazardous waste management programs if EPA finds that such programs are equivalent and consistent with the Federal program and provide adequate enforcement of compliance. Title 40 of the Code of Federal Regulations (CFR) part 272 is used by EPA to codify its decision to authorize individual State programs and incorporates by reference those provisions of the State statutes and regulations that are subject to EPA's inspection and enforcement authorities as authorized provisions of the State's program. This final rule revises the codification of the Montana authorized program. In addition, today's document corrects errors made in the September 30, 2005 **Federal Register** authorization document for Montana.

DATES: This final rule is effective March 8, 2006. The incorporation by reference of authorized provisions in the Montana regulations contained in this rule is approved by the Director of the Federal Register as of March 8, 2006, in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-R08-RCRA-2006-0048. All documents in the docket are listed on the <http://www.regulations.gov> web site. SUPPLEMENTARY INFORMATION:

I. Correction

There was an error and an omission published in the September 30, 2005 (70 FR 57152) authorization **Federal Register** document for Montana. The following corrections are made to Section G, page 57154, first column:

In the second paragraph, the effective date of the Administrative Rules of Montana (ARM), Title 17, Chapter 53, was incorrectly cited as March 9, 2005. The correct effective date is April 1, 2005.

In the third paragraph, Section 2-3-301 from the Montana Code Annotated 2005, was omitted from the list of approved procedural and enforcement provisions. The listing is shown below, the correction is bolded and italicized.

Montana Code Annotated 2005, sections 2-3-101 *et seq.*, 2-3-221, 2-3-301, 2-4-103, 2-4-315, 2-6-101 *et seq.*, 2-15-3501 *et seq.*, 27-30-204, 30-14-402 *et seq.*, 75-10-107, and 75-10-401 *et seq.*; and Montana Rules of Civil Procedure, Rule 24(a).

II. Incorporation by Reference

A. What is Codification?

Codification is the process of including the statutes and regulations that comprise the State's authorized hazardous waste management program into the CFR. Section 3006(b) of RCRA, as amended, allows the Environmental Protection Agency (EPA) to authorize State hazardous waste management programs. The State regulations authorized by EPA supplant the federal regulations concerning the same matter with the result that after authorization EPA enforces the authorized regulations. Infrequently, State statutory language which acts to regulate a matter is also authorized by EPA with the consequence that EPA enforces the authorized statutory provision. EPA does not authorize State enforcement

authorities and does not authorize State procedural requirements. EPA codifies the authorized State program in 40 CFR part 272 and incorporates by reference State statutes and regulations that make up the approved program which is Federally enforceable in accordance with Sections 3007, 3008, 3013, and 7003 of RCRA, 42 U.S.C. 6927, 6928, 6934 and 6973, and any other applicable statutory and regulatory provisions.

B. What Is the History of the Authorization and Codification of Montana's Hazardous Waste Management Program?

Montana initially received Final authorization on July 11, 1984, effective July 25, 1984 (49 FR 28245) to implement the RCRA hazardous waste management program. We granted authorization for changes to their program January 19, 1994, effective March 21, 1994 (59 FR 02752), October 25, 1996, effective December 24, 1996 (61 FR 55223), December 26, 2000, effective December 26, 2000 (65 FR 81381), and September 30, 2005, effective November 29, 2005 (70 FR 57152). EPA first codified Montana's authorized hazardous waste program effective January 31, 1986 (51 FR 3954). In this action, EPA revises Subpart BB of 40 CFR part 272, to include the authorization revision actions effective through November 29, 2005 (70 FR 57152).

C. What Decisions Have We Made in This Action?

Today's action codifies EPA's authorization of revisions to Montana's hazardous waste management program. This codification reflects the State program in effect at the time EPA authorized revisions to the Montana hazardous waste management program in a final rule dated September 30, 2005 (70 FR 57152).
