Summary: This rule amends the recordkeeping instructions in Appendix I of Part 264 and Appendix I of Part 265 so that unit of measurement codes and handling codes, used by hazardous waste treatment, storage and disposal facilities to maintain records on-site, match the codes used by these facilities on the Part A Permit Application Form. This technical amendment also adds handling codes for the proper recording of those processes relating to Boilers and Industrial Furnaces and Miscellaneous Units facilities. The Agency intends this amendment to encourage the consistent recordkeeping and reporting of information by hazardous waste treatment, storage and disposal facilities.

Thus, this regulation is immediately applicable only in states that do not have final authorization for a base RCRA program. For states that are authorized for a base program, these changes do not go into effect until States become authorized for them. Only final authorization is available. F. State statutes and regulations incorporate updates to the recordkeeping instructions so that the codes used by hazardous waste treatment, storage and disposal facilities to maintain records on-site match the codes used by these facilities on the Part A Permit Application Form as indicated on Revision Checklist 131.
