### Checklists

#### New

- This SPA provides seven new checklists (numbers 181 through 187), covering regulatory changes for the period July 1, 1999 through June 30, 2000. All of the checklists in SPA 21 are in RCRA Cluster X. Revision Checklists 185 and 187 contain only HSWA provisions; Checklists 181 and 184 contain only non-HSWA provisions; and Checklists 182 and 183 contain both HSWA and Non-HSWA provisions.
- Revision Checklist 186 modifies EPA's procedures for terminating RCRA permits. EPA does not require State programs to have equivalent procedure for appeals in their authorized programs. As such, this rule is not applicable to State Programs and will not be issued as a checklist to be used by States. EPA will not authorize States for this rule.

#### Existing

- Updates have been made to previous documents as follows:
  - Revision Checklist 157 revised to reflect as optional the provisions identified as less stringent;
  - Revision Checklist 157 Summary AG entries revised to reflect optional provisions;
  - Revision Checklists 167B and 167C revised to add entries inadvertently omitted and to reflect optional provisions identified in Revision Checklist 157;
  - Revision Checklist 167D revised to indicate that the Checklist has been withdrawn;
  - Revision Checklist 167A-F Summary revised to reflect withdrawal of Revision Checklist 167D. The AG entries related to Revision Checklist 157 optional provisions were revised to reflect conditionally optional status;
