

US EPA ARCHIVE DOCUMENT

---

RESEARCH TRIANGLE INSTITUTE

July 1993

**EVALUATION OF POTENTIAL BIOLOGICAL  
EMISSIONS FROM ALTERNATIVE  
MEDICAL WASTE TREATMENT TECHNOLOGIES**

FINAL REPORT

Prepared for:

Office of Solid Waste  
U.S. Environmental Protection Agency  
Washington, DC 20460

EPA Contract Number 68-WO-0032  
RTI Project Number 94U-5400-24A (3)

**EVALUATION OF POTENTIAL BIOLOGICAL  
EMISSIONS FROM ALTERNATIVE  
MEDICAL WASTE TREATMENT TECHNOLOGIES**

July 1993

*Prepared for*

Work Assignment Leader: Kristina Meson  
Office of Solid Waste  
U.S. Environmental Protection Agency  
Washington, DC 20460

*Prepared by*

Eugene C. Cole  
Keith E. Leese  
Richard M. Hall

Research Triangle Institute  
Research Triangle Park, NC 27709

Submitted by:

Deborah L. Franke, Manager  
Environmental Microbiology Department

Approved by:

Dennis F. Naugle, Director  
Center for Environmental Analysis

## **DISCLAIMER**

The research presented in this document has been funded by the United States Environmental Agency under contract number 68-WO-0032. It is a final report that has not been subject to the Agency's peer and administrative review. Mention of trade names or commercial products does not constitute endorsement or recommendation for use by the U.S. Environmental Protection Agency or the Research Triangle Institute (RTI). The views expressed in this document are those of the authors and do not represent official RTI or Agency policy.

THIS REPORT WAS PRINTED ON RECYCLED PAPER

## ACKNOWLEDGEMENTS

This document was prepared as the draft final product of Work Assignment No. 24, Medical Waste Treatment Technologies Evaluation, under U.S. EPA Contract No. 68-WO-0032.

The authors wish to express their appreciation to Kristina Meson, whose assistance as EPA Work Assignment Manager throughout the project helped guide this work to a successful completion. In addition, they wish to acknowledge Lynda McBroom for her administrative support, and those individuals and their medical waste treatment facilities who made this study possible.

## TABLE OF CONTENTS

<u>Section</u>	<u>Page</u>
Executive Summary .....	viii
1.0 Introduction .....	1
2.0 Literature Review .....	1
2.1 Indicator Microorganisms .....	1
2.2 Bioaerosol Sampling Methods .....	2
3.0 Indicator Microorganisms .....	2
3.1 Background .....	3
3.2 Approach .....	4
3.3 Test Organisms .....	4
3.4 Media and Reagents .....	5
3.5 Evaluation of Recovery Media .....	6
3.5.1 Growth and Quantitation of Test Organisms .....	7
3.6 Spore Survival During Aerosol Sampling .....	10
3.6.1 Survival of Uninjured Spores .....	10
3.6.2 Survival of Injured Spores .....	12
3.6.3 Spore Slippage from AGI-30s .....	14
3.7 Discussion .....	16
3.8 Indicator Microorganism Recovery Recommendations .....	16
4.0 Sampling Approach .....	17
4.1 Indicator Microorganisms .....	17
4.2 Media and Reagents .....	18
4.3 Bioaerosol Samplers .....	19
4.4 General Sampling Plan .....	19
4.5 Indicator Organism Recovery .....	20
5.0 Treatment Technologies, Sites, and Sampling Schedule .....	21
6.0 On-Site Steam Autoclave Sampling Plan .....	22
6.1 Sampling Points .....	22
6.2 Microbial Challenge .....	22
6.3 Air and Fluid Sampling .....	24
6.4 Results .....	24

# TABLE OF CONTENTS

Cont'd.

<u>Section</u>	<u>Page</u>
7.0 Microwave Sampling Plan .....	28
7.1 Sampling Points .....	28
7.2 Microbial Challenge .....	31
7.3 Air Sampling .....	31
7.4 Results .....	32
8.0 Mechanical/Chemical Sampling Plan .....	35
8.1 Sampling Points .....	35
8.2 Microbial Challenge .....	38
8.3 Air and Fluid Sampling .....	38
8.4 Results .....	39
9.0 Off-Site Steam Autoclave Sampling Plan .....	42
9.1 Sampling Points .....	42
9.2 Microbial Challenge .....	45
9.3 Air and Fluid Sampling .....	45
9.4 Results .....	46
10.0 Discussion .....	49
11.0 Future Research .....	49
12.0 Quality Assurance Plan .....	50
12.1 Microorganisms .....	50
12.2 Microbiological Media .....	50
12.3 Reagents .....	52
12.4 Equipment .....	52
12.5 Microbiological Testing and Sampling .....	53
12.6 Data Recording, Reduction, Validation, and Reporting .....	53
13.0 Occupational Health and Safety .....	53
14.0 Bibliography .....	54
<b>Appendix A - Bioemissions Monitoring of Medical Waste Treatment Technologies: A Review of the Literature</b>	
<b>Appendix B - ASTM's <i>Standard Practice for Sampling Airborne Microorganisms at Municipal Solid-Waste Processing Facilities</i></b>
