**Re: Dynegy Midwest Generation, Inc.
Response to Request for Information Under CERCLA Section 104(e)**

Dear Mr. Kinch:

Dynegy Midwest Generation, Inc. (DMG) submits this response to the U.S. EPA's Request for Information Under Section 104(e) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9604(e), dated March 9, 2009 (Request for Information), as received by DMG on March 18, 2009.

As identified on the "Enclosure: List of Facilities in your corporation which have received an Information Request" to the Request for Information, five facilities owned and operated by DMG (*i.e.*, Baldwin Energy Complex, Havana Power Station, Hennepin Power Station, Vermillion Power Station, and Wood River Power Station) each separately received CERCLA 104(e) information requests (dated March 9, 2009) from EPA. DMG does not have any additional facilities which have surface impoundments or similar diked or bermed management unit(s) or management units designated as landfills which receive liquid-borne material from a surface impoundment used for the storage or disposal of residuals or by-products from the combustion of coal, including, but not limited to, fly ash, bottom ash, boiler slag, or flue gas emission control residuals.

I certify that the information contained in this response to EPA's request for information and the accompanying documents is true, accurate, and complete. As to the identified portions of this response for which I cannot personally verify their accuracy, I certify under penalty of law that this response and all attachments were prepared in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.
