UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

SEP 14 2009

OFFICE OF
SOLID WASTE AND
EMERGENCY RESPONSE

VIA E-MAIL AND FEDERAL EXPRESS

Mr. Rick Diericx,
Senior Director-Operations Environmental Compliance
Dynergy Midwest Generation
604 Pierce Blvd.,
O'Fallon, Illinois 62269

Dear Mr. Diericx,

On May 27-28, 2009, the United States Environmental Protection Agency ("EPA") and its engineering contractors conducted a site assessment of the East Ash Pond at the Havana facility. The purpose of this visit was to assess the structural stability of the impoundments or other similar management units that contain "wet" handled coal combustion residuals (CCRs). We thank you and your staff for your cooperation during the site visit. Subsequent to the site visit, EPA sent you a copy of the draft report evaluating the structural stability of the units at Havana and requested that you submit comments on the factual accuracy of the draft report to EPA. Your comments were considered in the preparation of the final report .

The final report for Havana is enclosed. This report includes a specific rating for each CCR management unit. The engineering firm concluded that there are no existing or potential management unit safety deficiencies.

Since there are no existing or potential management unit safety deficiencies, we request that you conduct a general review of the report within 14 days. Please send your comments to:

Mr. Stephen Hoffman
US Environmental Protection Agency (5304P)
1200 Pennsylvania Avenue, NW
Washington, DC 20460

If you are using overnight or hand delivery mail, please use the following address:

Mr. Stephen Hoffman
US Environmental Protection Agency
Two Potomac Yard
2733 S. Crystal Drive
5th Floor, N-237
Arlington, VA 22202-2733

You may also provide a response by e-mail to hoffman.stephen@epa.gov

This request has been approved by the Office of Management and Budget under EPA ICR Number 2350.01.

You should be aware that EPA will be posting the report for this facility on the Agency website shortly.

Given that the site visit related solely to structural stability of the management units, this report and its conclusions in no way relate to compliance with RCRA, CWA, or any other environmental law and are not intended to convey any position related to statutory or regulatory compliance.

If you have any questions concerning this matter, please contact Mr. Hoffman in the Office of Resource Conservation and Recovery at (703) 308-8413. Thank you for your continued ongoing efforts to ensure protection of human health and the environment.

Sincerely,

A handwritten signature in black ink, appearing to read "Matt Hale", with a long horizontal flourish extending to the right.

Matt Hale, Director
Office of Resource Conservation and Recovery
