Re: Response to Recommendations
USEPA CCR Impoundment Assessment
John Sevier Fossil Plant (JSF)
Rogersville, Tennessee

Dear Mr. Kammeyer:

As requested, Stantec has reviewed the Request for Action Plan letter from USEPA dated June 13, 2013, which contains the results of the CCR impoundment assessment at John Sevier Fossil Plant conducted by USEPA's consultant Dewberry and Davis, LLC. Dewberry has rated John Sevier's facilities as *Satisfactory* and has indicated that no recommendations are warranted; therefore, no action is needed by TVA.

If you have any questions or need additional information, please call.

Sincerely,

STANTEC CONSULTING SERVICES INC.
