REPORT TO CONGRESS

FLOW CONTROLS AND MUNICIPAL SOLID WASTE

Office of Solid Waste
Municipal and Industrial Solid Waste Division

March 1995
REPORT TO CONGRESS

FLOW CONTROLS AND MUNICIPAL SOLID WASTE

EXECUTIVE SUMMARY

Office of Solid Waste
Municipal and Industrial Solid Waste Division

March 1995
# TABLE OF CONTENTS

## EXECUTIVE SUMMARY
- WHAT DID CONGRESS ASK EPA TO DO? ......................................................... ES-1
- WHAT ARE FLOW CONTROLS? ......................................................................... ES-1
- WHAT FACTORS ENCOURAGE USE OF FLOW CONTROLS? .............................. ES-1
- HOW DID EPA APPROACH THE CONGRESSIONAL REQUEST? ...................... ES-2
- WHAT ARE THE FINDINGS? ........................................................................ ES-3
- ARE ALTERNATIVES AVAILABLE OTHER THAN FLOW CONTROL? ................ ES-12

## CHAPTER I: INTRODUCTION
- A. RCRA AND FLOW CONTROLS ........................................................... I-2
- B. FACTORS ENCOURAGING THE USE OF FLOW CONTROLS ..................... I-3
- C. INTERESTED PARTIES’ POSITIONS ON KEY FLOW CONTROL ISSUES .......... I-5
- D. ORGANIZATION OF REPORT ........................................................... I-5

## CHAPTER II: STATE FLOW CONTROL AUTHORITIES AND IMPACT ON HUMAN HEALTH AND THE ENVIRONMENT
- A. METHODOLOGY ...................................................................... II-1
- B. STATE AUTHORITIES ................................................................. II-1
- C. HUMAN HEALTH AND THE ENVIRONMENT .............................................. II-5

## CHAPTER III: MARKET ANALYSIS OF FLOW CONTROLS
- INTRODUCTION ............................................................................. III-1
- The Market Analysis ........................................................................... III-3
- Limits of the Market Analysis ............................................................. III-5
- Methodology ..................................................................................... III-6
- Outline of Remainder of Chapter ......................................................... III-7
- A. THE DEMAND FOR WASTE MANAGEMENT SERVICES ........................ III-7
  - A.1 Available Data on Waste Stream .................................................. III-8
  - A.2 Methodology Used to Estimate Market Size .................................... III-8
    - Market Definition ........................................................................... III-8
    - Examination of Methodologies ..................................................... III-9
    - Comparison of EPA and BioCycle 1990 Estimates by Market Segment .... III-11
    - Comparison of BioCycle Landfill Estimates with Available State Data .... III-12
  - A.3 1992 Estimate of Waste Received at MSW Facilities .................... III-12
- B. COMPOSTING MARKET SEGMENT .................................................... III-14
TABLE OF CONTENTS

Key Findings ................................................................ III-14
Data Limitations ............................................................. III-15

B.1 Overview of Growth Trends ..................................................... III-15
B.2 Market Subsegments .......................................................... III-17
B.3 Market Segment Competitive Structure ................................................ III-18
Yard Trimmings Landfill and Combustion Bans ........................................ III-18
Competitive Economics ....................................................... III-19
Capital Requirements and Scale of Operations ........................................ III-21
Public/Private Infrastructure .................................................... III-22
Flow Controls and MSW Composting ............................................. III-23

B.4 Market Segment Potential ...................................................... III-24
Supply of Compostable Waste ................................................... III-24
End-Market Demand for Compost ................................................ III-25

C. RECYCLING MARKET SEGMENT ...................................................... III-26
Key Findings ................................................................ III-26
Data Limitations ............................................................. III-27

C.1 Overview of Growth Trends ..................................................... III-28
C.2 Market Subsegments .......................................................... III-33
C.3 Market Segment Competitive Structure ................................................ III-35
Recycling Laws and Landfill/WTE Bans ............................................. III-36
Competitive Economics ....................................................... III-37
Capital Requirements and Scale of Operations ........................................ III-40
Public/Private Infrastructure .................................................... III-41
Flow Control Role in Recycling Growth ............................................. III-42
### TABLE OF CONTENTS

| C.4 | Market Segment Potential | III-45 |
|     | Supply of MSW Recyclables | III-45 |
|     | End-Market Demand for Recyclables | III-46 |

#### D. WASTE-TO-ENERGY MARKET SEGMENT

| D.1 | Overview of Growth Trends | III-47 |
| D.2 | Market Subsegments | III-49 |
| D.3 | Market Segment Competitive Structure | III-51 |
| D.4 | Market Segment Potential | III-58 |

#### E. LANDFILL MARKET SEGMENT

| E.1 | Overview of Growth Trends | III-63 |
| E.2 | Market Subsegments | III-67 |
| E.3 | Market Segment Competitive Structure | III-68 |
| E.4 | Market Segment Potential | III-72 |

#### F. ANALYSIS OF KEY ISSUES IN FLOW CONTROL DEBATE

| F.1 | Are Flow Controls Necessary to Ensure Adequate Waste Management Capacity? | III-76 |
|     | Recycling and Composting Capacity | III-76 |
|     | Waste-to-Energy Capacity | III-77 |
|     | Landfill Capacity | III-78 |
|     | Use of Flow Controls to Ensure Adequate In-State Capacity | III-78 |

## APPENDICES:

- **APPENDIX I-A**: Flow Controls and Municipal Solid Waste: Summary of Public Comments
- **APPENDIX I-B**: Legal Decisions Concerning Municipal Solid Waste Flow Controls
- **APPENDIX II-A**: Summary Matrix of State Flow Control Authorities
- **APPENDIX II-B**: Flow Control Case Studies
- **APPENDIX III-A**: Technical Analysis: Waste Generation
- **APPENDIX III-B**: Technical Analysis: Compost Segment
- **APPENDIX III-C**: Technical Analysis: Recycling Segment
- **APPENDIX III-D**: Technical Analysis: WTE Segment
- **APPENDIX III-E**: Technical Analysis: Landfill Segment
