FOR IMMEDIATE RELEASE
July 28, 2003

THE GULF SAFETY COMMITTEE WINS 3RD PLACE GULF GUARDIAN AWARD

STENNIS SPACE CENTER, Miss. – The Gulf of Mexico Program recently announced that, the Gulf Safety Committee will receive a third place Gulf Guardian Award for 2003 in the Partnership Category. The award will be presented to committee representatives at the Southern States Environmental Conference and Exhibition scheduled Sept. 23-25, in Biloxi.

Four years ago the Gulf of Mexico Program developed the Gulf Guardian awards as a method of recognizing and honoring the businesses, community groups, individuals, and agencies that are taking positive steps to keep the Gulf healthy, beautiful and productive. The Gulf of Mexico Program began in 1988 to protect, restore, and maintain the health and productivity of the Gulf of Mexico ecosystem in economically sustainable ways. Award entries were received from Alabama, Florida, Louisiana, Mississippi, and Texas. A first, second, and third place award are given each year in six categories – individual, business, youth and education, nonprofit organizations, government, and partnership efforts.

“Our oceans and coasts are precious resources,” said Jimmy Palmer, U.S. Environmental Protection Agency Regional Administrator in Atlanta. “Coastal and marine waters provide some of the most diverse and biologically productive habitats on the planet,” he added. “This year’s Gulf Guardian Award winners are doing their part to keep these valuable resources healthy and productive.”

“The Gulf Safety Committee is a voluntary, civilian run, marine transportation system committee that grew out of a series of informal meetings among offshore Gulf of Mexico waterway stakeholders, users, and regulators in 2001,” said Vince Cottone, chairman of the committee.

Membership includes commercial fishing, recreational diving and fishing interests, shipping, offshore supply vessels and the towing industry, oil and gas industry, regulatory agencies, and other groups with interest in the Gulf of Mexico. The committee’s mission is to provide a forum through which the experience, issues, and concerns of all offshore Gulf of Mexico stakeholders, users, and regulators can be expressed and to make the Gulf of Mexico a cleaner, safer, and a more secure and economically viable region for commercial and recreational use.

Gulf of Mexico Program Office Acting Director Bryon O. Griffith said, “Our 2003 Gulf Guardian Award winners are to be commended for taking action to preserve and restore the Gulf of Mexico.” “One out of every six jobs in the United States is marine-related, generating \$54 billion in goods and services annually. Protecting these waters makes sense economically, aesthetically, and environmentally. Acting as one community to protect our one and only Gulf of Mexico is essential to our way of life and our standard of living.”

For a list of all the Gulf Guardian Award winners for 2003, visit the Gulf of Mexico Program web site at <http://www.epa.gov/gmpo> and click on the Gulf Guardian Award button on the left.

The Gulf of Mexico Program is underwritten by the U.S. Environmental Protection Agency and is a non-regulatory, inclusive consortium of state and federal government agencies and representatives of the business and agricultural community, fishing industry, scientists, environmentalists, and community leaders from all five Gulf States. The Gulf Program seeks to improve the environmental health of the Gulf in concert with economic development.
