**Charge Questions**  
**AHETF Study Proposal:**  
**Closed System Loading of Liquids in Returnable and Non-Returnable Containers**

Study Title: “Closed System Loading of Liquids in Returnable and Non-Returnable Containers (AHE500)”

If the AHETF closed system liquid loading study proposal is revised as suggested in EPA’s review and if the research is performed as described:

1. Is the research likely to generate scientifically reliable data, useful for assessing the exposure of workers using closed systems to load liquid pesticide products from returnable or nonreturnable containers?
2. Is the research likely to meet the applicable requirements of 40 CFR part 26, subparts K and L?
