RE: Repellent protocol SCI-001 review

Dear Mr. Carley,

I have attached a copy of the sections of the IRB minutes pertaining to the SCI-001 protocol. There have not been any changes to the Independent IRB membership since the last submission. If you require this information in a more formal manner please let me know.

11-7-2006 [SCI-001].doc

I have not yet received either the IRB minutes or the documentation of IRB membership as required by 40 CFR 26.1125 and as specified by 40 CFR 26.1115(a)(2) and (5). These are needed to complete the protocol package before it can enter review.
