27	Hemisphere Ltd One Corporate Excl	17-Oct-05	25825 Science Park Drive, Suite 265	Cleveland	Ohio	44122-7323	Todd S. Davis	216 464-4105		2.2 million cubic yards of landfill space on a rail line to dispose of asbestos-containing construction debris on a fully-remediated former brownfield site recognized by U.S. EPA Region 5 as one of the region's most innovative brownfield redevelopments, known as the Stickney West Industrial Park.	This site is a newly permitted Construction & Demolition Debris landfill licensed to accept asbestos-containing debris. No other waste has been placed in this landfill. Therefore, the landfill can be a completely capped fill dedicated to hurricane-related debris. The site was a portion of a major brownfield development, performed in cooperation with the City of Toledo, Ohio, Ohio EPA and U.S. EPA Region 5.	SOLID WASTE	LANDFILL SITE	LB		
28	Spearhead Innovations	19-Oct-05	2001 Jefferson Davis Hwy Suite 806	Arlington	Virginia	22202	Chip Mogensen	703 413-5090 X226	http://www.spearheadinnovations.com/	Product Acoustic Signature System (PASS)	PASS (Product Acoustic Signature System) Product Summary: PASS rapidly, reliably, and safely "looks inside" sealed containers to identify certain liquid and bulk solid contents; detect submerged contraband or hidden compartments in liquid-filled containers; determine fill levels; expose containers with contents different from surrounding containers; confirm that container contents match shipping manifests; consists of a sensor unit cabled to a commercial-off-the-shelf PDA loaded with specialized computer software; is designed for the inspection of liquid materials regularly found in security and inspection scenarios; the technology behind PASS was initially developed at the Pacific Northwest National Laboratory, operated by Battelle Memorial Institute on behalf of the U.S. Department of Energy; the only device of its kind, PASS was voted one of the 100 Most Technologically Significant Products in the World by R&D Magazine. 68	Newtech Agencies Pty Ltd.	19-Sep-05	Baukham Hills	Sydney NSW	Australia	2153	Stuart Watts	0011612962298132		Probiotic Products/Water Technology	These products are used to clean up waste and contaminated water (Salt and or fresh) These products are completely probiotic and only need to be mixed with water and sprayed onto the surface of the problem area. The first thing that happens is the bad odors go in a matter of a few minutes.	SURFACE WATER	WASTE AND CONTAMINATION CLEANUP	SB															
69	Progressive Global Technologies, Inc.	22-Sep-05	911 K.C.K. Way, Suite #1	Cedar Hill	Texas	75104	Jay Powell	972 293-6558		Water treatment, wastewater and sewage disinfection and hydrocarbon remediation	This vendor makes a chemical product called Oxy-pro, a patent pending product of oxidation reduction technology intended for sewage treatment, disinfection, odor control, sanitation, and water treatment. Product is apparently registered with the EPA as an antimicrobial, EPA product registration number of 82780-R. Vendor claims that Oxy-pro passes toxicity testing and is considered to be non-hazardous. As a liquid, Oxy-pro can be transported in 330 gallon tote tanks or tanker trucks for on site injection.	WASTEWATER TREATMENT	OXYPRO FOR SEWAGE TREATMENT	SB															
70	Ecosphere Technologies	19-Oct-05	3515 S.E. Lionel Terrace,	Stuart	Florida	34997	Michael R. Donn, Sr.	772-287-4846	http://www.ecosphere.net/	Mobile Emergency Filtration System	This system is capable of producing up to 60,000 gallons of high-quality water per day- enough for the needs of 10,000 people per unit-stripping out all contaminants to very low or non-existent quantities. It's the only filtration system of its kind to be tested and verified by the U. S. EPA through its Environmental Technology Verification Program to clean water from a man-made of natural disaster.	WASTEWATER TREATMENT	FILTRATION SYSTEMS	SB															
71	Hydro Mechanics	28-Oct-05	1940 Dana Avenue	Cincinnati	Ohio	45207	Customer Support Dept	513 731-4415	www.hydro-mechanics.com	Water treatment, waste water treatment , high quality water processes, aquatic life support systems, fungal decontamination ("sick building syndrome")	Hydro Mechanics Systems Inc. (HMS) designs, builds, and installs custom water treatment systems for a host of applications. Hydro Mechanics provides water and wastewater treatment products, systems and services for industrial, institutional, zoological and aquarium customers. Experience is with water treatment in maritime, aeronautical, zoological, and industrial systems.	WASTEWATER TREATMENT	SOIL REMEDIATION	LB

Hazardous Substance Encapsulation	Patented process for encapsulation of hazardous substances
Passive Vapor Sampling - soil, air, water.	Passive, sorbent-based sampler constructed of GORE-TEX membrane and engineered sorbent. Samples VOCs, SVOCs, PAHs in soil gas, air, and water. Site assessments, vapor intrusion investigations, indoor-outdoor air sampling, groundwater sampling and site monitoring. Focuses subsequent sampling, reduces costs.
Full range of risk management, industrial hygiene, and infection control services; high risk environment solutions.	Provides a full range of risk management, industrial hygiene, and infection control services. Specializes in customized services for the healthcare industry including Infection Control and Risk Management Outsourcing, Health hazard exposure assessments, Indoor air quality surveys, Mold Surveys, Training and Seminars in Mold Evaluation and Remediation, Infection Control for the Construction Contractor, and Hazard Awareness and Compliance with the OSHA HAZWOPER standard, OSHA Compliance assistance, Expert witness testimony.
Secondary Spill Containment, Fluid Bladders, Open Top Fluid Tanks	Manufacturer of fluid bladders available for the containment of potable water, gray water, black water, and some fuels. Spill containment, decon and industrial containment, secondary containment, self-standing target tanks. Drip management products: drip pouch, hose wrap, drip catchers, maintenance blankets, custom designed as required for intended product application.
