Webinar Series: Five Years of Progress in Particulate Matter Research

Wednesdays, October - December 2010

Please join the Environmental Protection Agency for a riveting series of talks from the nation's leading experts on air pollution, particulate matter, and health effects. The five EPA-funded PM Research Centers, the Health Effects Institute and EPA's intramural program will be presenting on their research progress and what the future holds through a series of seven Webinars.

For more information on this series, visit: <http://www.epa.gov/airscience/seminar-calendar.htm>

Health Effects Institute

October 27, 2010, 2:00 - 3:30 p.m. EDT

Speakers: Dan Greenbaum, president
Robert O'Keefe, vice president

Johns Hopkins University Center for PM Research

November 3, 2010, 2:00 - 3:30 p.m. EST

Speaker: Patrick Breyse, Ph.D., director

Harvard University PM Center

November 10, 2010, 2:00 - 3:30 p.m. EST

Speakers: John Godleski, M.D., associate director
Joel Schwartz, Ph.D., lead investigator

San Joaquin Valley Aerosol Health Effects Research Center

November 17, 2010, 2:00 - 3:30 p.m. EST

Speakers: Anthony Wexler, Ph.D., director
Kent Pinkerton, Ph.D., associate director

University of Rochester PM Research Center

December 1, 2010, 2:00 - 3:30 p.m. EST

Speakers: Mark Frampton, M.D., lead investigator
Annette Peters, Ph.D., lead investigator

Southern California Particle Center

December 8, 2010, 2:00 - 3:30 p.m. EST

Speaker: John Froines, Ph.D., co-director

EPA Office of Research and Development

December 15, 2010, 2:00 - 3:30 p.m. EST

Speakers: Dan Costa, Sc.D., National Program Director for Air Research, EPA Office of Research and Development
Ian Gilmour, Ph.D., Chief (acting), EPA's
Cardiopulmonary and Immunotoxicology Branch
