

PANEL DISCUSSION QUESTIONS

- ▶ Are the exposures and endpoints being studied appropriate and useful for regulators and risk assessors? ▶ *Are we studying the right things?*
- ▶ How will the methods and models being developed be used and by whom? ▶ *Will the results of the research be useful? To whom?*
- ▶ How can ORD improve communications with programs, regions, and the scientific community about EDCs research?
 - ▶ *How can we get the results to those who can apply and use them?*
 - ▶ *How will we learn about new research needs?*
