Registration Review Schedule for 2012 to 2015: Changes to Current Schedule

Several changes to the current registration review schedule occurred in order for cases to be grouped with related cases or to maintain the pace of docket openings necessary to keep the Agency on track for the first 15-year cycle of registration review:

- Resmethrin was moved from FY12 Q3 to FY13 Q3
- Metofluthrin was moved from FY12 Q4 to FY13 Q3
- Triclosan was moved from FY13 Q1 to FY13 Q2
- 2-Phenylphenol, and salts was moved from FY13 Q2 to FY14 Q1
- Dihalodialkylhydantoins was moved from FY13 Q2 to FY13 Q3
- Trichloromelamine was moved from FY13 Q3 to FY13 Q2
- Econea was previously scheduled for FY13 Q3 and is now replaced by tralopyril
- Gibberelins was previously unscheduled and moved to FY13 Q2
- Methyl isothiocyanate was moved from FY14 Q1 to FY13 Q4
- MCPA moved from FY14 Q1 to FY14 Q2 to parallel the schedule of MCPB, and salts.
- T99 (1-Tetradecanaminium, N, N-dimethyl-N[3-(trimethoxysilyl)propyl]-,chloride) was moved from FY15 Q1 to FY13 Q2
- Trimethoxysilyl quats was moved from FY15 Q1 to FY13 Q2
