Total Score

_____ Add all assigned points from each environmental section.
 +
 _____ Add all assigned points from each Champion Project box.
 = _____ **Total Score:** add the sum of your environmental section and Champion Project points.

GRADE YOUR STATION: Where does your station fall within the environmental economy?

0-30 pts

Seed: If you scored below 30, your station has great potential for growth—in bottom line and environmental savings. Review the

score card for recommendations on how to start or continue environmental improvements. Contact the DCA to learn how environmental commitment can transform into bottom line savings.

31-60 pts

Cultivated: If you scored between 30-60, your station has made or committed to growing its environmental commitment. Now would be a great time

to promote your business by joining Kentucky's environmental leadership program KY EXCEL (KYEXCEL.ky.gov). Remember your commitment to environmental improvements and monetary savings can continue! Review the score card for further recommendations. Contact the DCA to learn how environmental commitment can transform into bottom line savings.

61 pts +

Matured:

Congratulations! Your station has taken or committed to the steps needed to rise in

environmental performance. Now would be a great time to promote your business by joining Kentucky's environmental leadership program KY EXCEL (KYEXCEL.ky.gov). Review the score card for further recommendations on how to continue environmental improvements. Contact the DCA to learn how environmental commitment can transform into bottom line savings.
