Washington State Department of Ecology Sustainable Washington State Innovations Grant Project

FY2012 1st & 2nd Quarter Combined Report

This progress report covers the period from October 1, 2011 through March 30, 2012.

Synopsis of Accomplishments – Ecology continued to focus on the remaining project deliverables related to: 1) Environmental management systems and 2) Global Reporting Initiative sustainability reporting.

Ecology is reconsidering the approach for EMS training due to agency workload issues, reductions in staffing, and a poor response to the agency's request for proposals.

Summary of Accomplishments

Task 1 Completed – <u>WA Environmental Results Program</u> (see Ecology website for details)

Task 2

2.7	Update the Ecology EMS	Ecology issued a request for	Ecology will survey pollution
	Alternative for Pollution	proposals to conduct EMS	prevention planners to gage
	Prevention Planners	training, but is reconsidering	interest for a webinar series
		due to staff workload and	on EMS implementation.
	Ecology staff propose the	reductions. Ecology is	
	following (revised August 2011): - Update Ecology's EMS policy guidance - Conduct staff training (1-3 day EMS training) - Conduct at least two EMS site visits, as resources allow.	considering conducting a webinar series in lieu of a onsite workshop.	

FY2012 Combined 1-2 Quarter Progress Reports October 1, 2011 – March 30, 2012 Page 2

2.8 Update Ecology's Sustainability
Report Support to meet GRI
Standards – Ecology will purchase
XBRL software to use GRI
taxonomy to tag GRI report(s) and
perform other XBRL operations.

Ecology staff propose the following:

Detailed comparison of Ecology plan and GRI Guidelines.

Index Ecology plan to GRI's G3 standard.

Create an Ecology GRI report based upon Ecology's plan to achieve "Application Level B" status.

Conversion of new Ecology GRI report to XBRL tagged version.

Create a web version of Ecology's GRI report.

Write a brief project report including findings & recommendations.

Publish results on a web page of our existing plan at http://www.ecy.wa.gov/sustaina bility/ecoaction.html)

Ongoing activity. Ecology has completed the agency's sustainability plan.

We will be working toward the GRI level C or B status.

It is not clear if Ecology will purchase the software, since XBRL continues to evolve as the standard.

Ecology has assigned this task to Linda Glasier at Ecology HQ to assist with the completion of the project.

Ken Zarker and K Seiler will work with senior management to complete the project by June 30, 2012. Staff is completed the final draft of the application to meet Level C status. Staff is scheduling briefing for executive management for June 2012.

Part 4 - Financial Report

Ecology has expended a significant portion of the funds. The remaining expenses will be primarily used for the EMS training deliverables.
