RE: State of Louisiana  
Recommendations for Area Designations Amendment  
2008 Ozone National Ambient Air Quality Standards (NAAQS)

Dear Dr. Armendariz:

In accordance with Section 1107(d) of the Clean Air Act Amendments of 1990, the state of Louisiana is pleased to amend its prior recommendations for area designations for the 2008 Ozone NAAQS.

Based on a review of the quality-assured ozone monitoring data for the period 2008-2010, Louisiana recommends a designation of nonattainment for the following monitored parish:

- East Baton Rouge Parish

Louisiana further recommends a designation of "attainment" for the other 18 monitored parishes in the state. The remaining parishes are recommended as "unclassifiable" as there is no monitored data. Attached please find a complete list of the 64 Louisiana Parishes by Air Quality Control Region and the recommended designations.

If you have any questions, please contact Tegan Treadaway, Administrator of the Air Permits Division, Office of Environmental Services at 225-219-3408.

Sincerely,

Peggy M. Hatch  
Secretary
