APR 17 2003

Mr. Benjamin Speakthunder, President
Fort Belknap Indian Community
R.R. 1, Box 66
Harlem, Montana 59526

Dear President Speakthunder:

Thank you for your recent letter dated March 24, 2003 providing the Fort Belknap Indian Community's recommendation on the air quality designation for the national health based standard for ground-level ozone, a major constituent of smog. Your letter is an important step toward providing tribal members with information about air quality in their community. We intend to carefully review your recommendation and work with you and the Fort Belknap Indian Community's environmental program staff as necessary in determining a final designation.

We look forward to working with you throughout this 8-hour ozone designations process. If you have any questions, please feel free to contact Richard Long, Director of our Air and Radiation Program, at (303) 312-6005. You or your staff may also contact Tim Russ, at (303) 312-6479, or Monica Morales, at (303) 312-6936, Air and Radiation Program staff, with any questions. For your convenience you may contact my staff toll-free at 1-800-227-8917.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert E. Roberts".

Robert E. Roberts
Regional Administrator

cc: Ina Nez Perce (Environmental Protection Program Manager, Fort Belknap Indian Community)
Kermit Snow, Jr. (Air Quality Technician, Fort Belknap Indian Community)
