OFFICE OF THE GOVERNOR

KATHLEEN SEBELIUS, GOVERNOR

January 22, 2004

Mr. James Guilliford
Region VII Administrator
U.S. Environmental Protection Agency
901 N. 5th Street
Kansas City, KS 66101

RECEIVED

JAN 28 2004

APDB

Dear Mr. Guilliford:

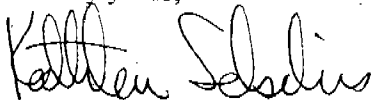

This letter serves to amend the 8-hour ozone designation recommendation for the State of Kansas. This amended recommendation is in response to your letter dated December 12, 2003, in which the State of Missouri request to flag ozone data for April 12 and 13, 2003 was approved. With this approval, the 2003 ozone season data have now been quality assured. On the basis of the 2001 through 2003 ambient air quality data showing attainment of the standard, Wyandotte and Johnson Counties are eligible for an attainment designation.

The recommendation to designate the remainder of the state as attainment/unclassifiable is based upon the fact that no reference method monitoring of sufficient duration has been conducted in the counties designated attainment/unclassifiable except in Sedgwick, Linn, Sumner, and Trego Counties. Ozone monitoring data collected at monitoring sites located in these counties demonstrate that they meet the 8-hour ozone standard.

This recommendation does not include the following tribal lands: the Prairie Band of the Potawatomi Indian Reservation in Jackson County; and the Kickapoo Nation Indian Reservation, the Sac and Fox Tribe Indian Reservation and the Iowa Tribe Indian Reservation in Brown County.

Feel free to contact Ronald Hammerschmidt, Ph.D., Director of the Division of Environment at 785-296-1535, if you have any questions regarding these recommendations.

Sincerely yours,

Kathleen Sebelius
Governor of the State of Kansas
