U.S. Environmental Protection Agency
Region V (RA-19J)
77 West Jackson Boulevard
Chicago, IL 60604

RE: Governor's Letter Recommending Attainment Designation for Ozone

Dear Mr. Lyons: *Frank,*

Pursuant to Section 107(d)(1) of the Clean Air Act, and following the revision of the ozone National Ambient Air Quality Standard (NAAQS) on July 18, 1997, the Governor of Minnesota is recommending that the entire state of Minnesota be designated as attainment for the new eight-hour ozone standard. This recommendation is contingent upon resolution of the legal issues and recent federal court actions concerning the Environmental Protection Agency's (EPA's) authority to implement this standard.

This designation recommendation is based on three consecutive years (1997-1999) of air sampling data collected at five federal reference and equivalent method monitors around the state. The summary data are provided as tables of the fourth highest value at each monitoring site for each year (1993-1999) and of three-year calculated averages (1993-1995 through 1997-1999) for each site (enclosed). No site in the state exceeded the new eight-hour standard (0.08 parts per million) for ozone for any three-year period. Quality assured ozone monitoring data for Minnesota has been submitted to the Aerometric Information Retrieval System through 1999. The data for May 14, 1998, has been flagged as an exceptional event due to the Mexico wildfires, as per the letter of March 12, 1999, from Loretta Lehrman at EPA Region V. The locations of the ozone monitors in the state and in the metropolitan area of Minneapolis/St. Paul are provided by maps (enclosed).

The Minnesota Pollution Control Agency (MPCA) Commissioner is appointed by the Governor. The Commissioner is also the Chairperson of the MPCA Citizens' Board which, by statute, is granted broad air quality regulatory powers, including power to adopt air quality rules and standards, to issue emission permits, and to issue administrative orders related to air emissions. (Minn. Stat. §§ 116.07 and 116.081 [1998]). Furthermore, the Board delegated to the Commissioner its authority to make State Implementation Plan submittals to the EPA on October 24, 1995. The Commissioner is duly authorized to submit this letter on behalf of the Governor.

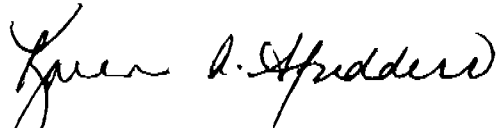

Mr. Francis X. Lyons

We anticipate that you will agree with this recommendation for state-wide attainment designation. If you have questions or comments on this submission, please contact Gordon Andersson, of my staff, at (651) 296-7667.

Sincerely,

Karen A. Studders
Commissioner
