BIOPESTICIDE INDUSTRY ALLIANCE

The Biopesticide Industry Alliance

Who: 60 companies and individuals

- Voting Members
- Associate Members
- Ad hoc Members
- Individual Members
- Public Research & Education

The Biopesticide Industry Alliance

Microbial Biopesticides:

Fungi

Bacteria

Yeasts

Protozoa

Viruses

The Biopesticide Industry Alliance

Biochemical Biopesticides:

Plant Growth Regulators

Insect Growth Regulators

Organic Acids

Pheromones

Minerals/others

The Biopesticide Industry Alliance

Our mission*

- Improve the global acceptance of biopesticides as having a strong value proposition.
- Facilitate the successful development, commercialization, and adoption of biopesticides.

* Adopted by the BPIA Board of Directors, September 29th, 2010

The Biopesticide Industry Alliance

Our purpose

Promote industry standards for biopesticides.

Communicate the value of biopesticides in agriculture, forestry, turf and ornamental, public health, consumer, and other target markets.

The Biopesticide Industry Alliance

Our purpose

Develop collaborative working relationships with the authorities that regulate biopesticides and become a resource to these authorities in order to ensure timely, predictable, transparent, and appropriate registration and regulatory requirements.

bpia

The Biopesticide Industry Alliance

Our purpose

Become a leading source of information to key influencers who impact acceptance, commercialization, and adoption of biopesticides.

bpia

The Biopesticide Industry Alliance

OPERATING PRINCIPLES

1. Products that are supported have appropriate EPA, PMRA, EU or other equivalent registrations.

The Biopesticide Industry Alliance

2. Proper product stewardship at all levels of the value chain:

a. Processes for maintaining product quality integrity and resolving product complaints

b. Scientifically valid efficacy tests supporting claims and promotions

c. Commercially acceptable product efficacy levels in target geography with minimal field trial variability

The Biopesticide Industry Alliance

Committee Work

The Biopesticide Industry Alliance

PR Committee:

Communicate and promote biopesticide benefits as safe and effective products to each level of the value chain (described as:

Manufacturer/Distributor/Retailer/Grower / Processor/Shipper/Food Retailer/Consumer/Other Markets & Key Influencers.)

The Biopesticide Industry Alliance

Regulatory Committee:

Continue to foster relationships with key regulatory agencies toward decreasing the regulatory barriers to adoption of biopesticides.

The Biopesticide Industry Alliance

Government Affairs Committee:

Develop a legislative strategy to address issues important to the biopesticide industry.

The Biopesticide Industry Alliance

Membership Committee:

Increase BPIA membership – U.S. and International

The Biopesticide Industry Alliance

Outreach Committee:

Develop collaborative relationships with other organizations with similar objectives where appropriate to the benefit of BPIA and its members.

The Biopesticide Industry Alliance

All Committees:

Identify and exploit opportunities that will drive growth and adoption of biopesticides.

The Biopesticide Industry Alliance

All Committees:

Identify and minimize barriers to the growth of the utilization of biological pesticides.
