Registration Process Improvements in BPPD

Linda A. Hollis, Chief
Biochemical Pesticides Branch
Biopesticides and Pollution Prevention Division
United States Environmental Protection
Agency

Process Improvements – Goals

- Improved Communication
- Improved Process Consistency/Predictability
- Improved Quality
 - Industry submissions
 - BPPD products (reviews, regulatory documents)
- Improved Timing
 - Early detection of “red flag” issues
 - Reduction in frequency and length of PRIA date negotiations

Process Improvements – New Initiatives

- Submission Readiness Team
- Meeting Process Improvements
- Availability of DER Templates
- Guidance Documents
- Improved BPPD (internal) Quality Control

Submission Readiness Team (SRT)

- Purpose
- Process
- Timeframe
- Impact on the negotiation process
- Monitoring Success

Meeting Process Improvements

- e based minutes
- Real time feedback

Availability of DER Templates

- Microbial pesticides (OECD DER Templates available)
- Biochemical pesticides (OECD DER Templates in progress, compatible with conventional chemical guidelines)

Guidance Documents

- Roadmap to Biopesticide Registration
- Information on addressing data requirements for biochemical pesticides

Internal Quality Control

- Document Review Team (DRT)
- Presubmission Coordinators
- Early Notifications

Future Training

- BRIC 2 – a hands on “how to” workshop
- Product chemistry data package training
- Rationale writing
